Over the past several months, we have witnessed an inordinate amount of park attendees intruding on landscaped areas at Lee Street Park. The area immediately behind the wooden trellises, there is a landscaping bed that separates the trellis from the sidewalk. This area has been subjected to a constant flow of park-goers jumping off the wall to get to the sidewalk or persons simply walking through the landscape bed (See Below).

After a field meeting with Mayor Day, Public Works Director Joe Nettleton & City Manager Ricky Clark, it was decided that perhaps the best solution was to add large plantings so that the area wouldn't be as easy to cut through. In addition, it is also suggested that we erect some form of gate/fence alongside the back of the concrete wall, in the near future.

Joe Nettleton has contacted Duncan's Landscaping & Maintenance, Inc to obtain a bid for 75- Ruby Lorapetiam shrubs to

Summary & Background

(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)

As per Council's request, a contract has been signed for the purpose of purchasing the site located at 108 Broad Street with a 30 day due diligence clause. While under contract, to ensure that we have an accurate accounting of any potential or existing environmental contamination liabilities, staff is requesting approval of a Phase 1 Environmental Site Assessment.

A Phase 1 Environmental is an investigation of the subject property which must be conducted following ASTM standards which conform to the All Appropriate Inquiry standards, acceptable to the USEPA for provision of certain defenses against CERCLA liability. It covers an investigation of the current and past history and uses of the property in question. What was previously on the site? What could past usage have done? Did any usage contaminate the soil or groundwater underlying the site? Are any petroleum, hazardous materials or chemicals in use at the site, or have they been released to the air, soil or groundwater at or near the site?

Some of the areas of investigation include:

- A thorough review of historical records of the property, including historical aerial photographs, fire insurance mapping (maps, usually older, of most of the US showing what properties contained in the past, such as buildings, fuel tanks, etc.), and historical topographic mapping.
- A thorough review of readily available government environmental records of the property, such as for spills, releases to the environment, fuel tank registrations, hazardous material manifests, environmental records, etc.
- Interviews with current and past property occupants as might be obtainable, as well as others who might be able to shed light onto past or present uses of the property.
- A thorough site inspection, including all building interiors as well as all exterior property and grounds. This site inspection would include a visual inspection of the presence of features such as fuel or chemical storage tanks, the presence of stained soils, site activities, etc.

The site is approximately a 2,772 square-foot commercial building, constructed on or around 1945.

Staff is recommending approval of a proposal from Terracon in the amount of \$2,150.00. Terracon has worked with several municipalities around the state in assisting with the acquisition of real estate to ensure environmental are intact.

- Prior environmental reports, permits and registrations; or geotechnical reports, if provided by the client

Pursuant to ASTM E1527-13, the client should engage a title company or title professional to undertake a review of reasonably ascertainable recorded land title records and lien records for environmental liens currently recorded against or relating to the site. If the client is unable to provide land title records or environmental lien information, an abstract firm may be contracted by Terracon to develop a chain of title from a review of land title records for an additional fee. Documentation of environmental liens, if recorded, will be provided with the chain of title. Note, however, unless specifically requested within three days of project commencement, Terracon will rely on the client to provide land title records. If a search of land title records for environmental lien and activity and use limitations (AULs) encumbering the site is not provided for review in a timely manner, Terracon may conclude that the absence of these records represents a data gap, which must be evaluated and documented in the final report.

The client and the current owner or their representative will be interviewed to provide information regarding past uses of the site and information pertaining to the use of hazardous substances and petroleum products on the site. Additionally, a reasonable attempt will be made to interview past owners, operators, and occupants of the site to the extent that they are identified within the scope of the ESA and are likely to have material information that is not duplicative of information already obtained through the assessment process.

REC Definition

Recognized Environmental Conditions are defined by ASTM E1527-13 as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment, 2) under conditions indicative of a release to the environment, or 3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions."

Regulatory Records Review

Consistent with ASTM E1527-13, outlined below are the following federal, state, and tribal databases, where applicable are typically reviewed for indications of RECs, and the approximate minimum search distance of the review from the nearest property boundary. A database firm will be subcontracted to access governmental records used in this portion of the assessment. Additional federal, state, and local databases may be reviewed if provided by the database firm. Determining the location of unmapped facilities is beyond the scope of this assessment.

Governmental Records	Search Distance
Federal NPL Site List	1.0 mile
Federal NPL (Delisted) Site List	0.5 mile
Federal CERCLIS Site List	0.5 mile
Federal CERCLIS NFRAP Site List	0.5 mile
Federal RCRA Corrective Actions (CORRACTS) TSD Facilities List	1.0 mile
Federal RCRA Non-CORRACTS TSD Facilities List	0.5 mile
Federal RCRA Generators List	Site and Adjoining
Federal Institutional Control/Engineering Control Registries	Site Only
Federal ERNS List	Site Only
State and Tribal-Equivalent NPL Site Lists	1.0 mile
State and Tribal-Equivalent CERCLIS Lists	0.5 mile
State and Tribal Landfill and/or Solid Waste Disposal Site Lists	0.5 mile
State and Tribal Leaking UST Lists	0.5 mile
State and Tribal Registered UST Lists	Site and Adjoining
State and Tribal Institutional Control/Engineering Control Registries	Site Only
State and Tribal VCP Site Lists	0.5 mile
State and Tribal Brownfield Site Lists	0.5 mile

Tribal databases will only be evaluated if the site is located in an area where a recognized tribe has jurisdiction for environmental affairs.

In addition to the database review and if customary practice for the site location, an attempt will be made to review reasonably ascertainable and useful local lists or records such as Brownfield sites, landfill/solid waste disposal sites, registered storage tanks, land records, emergency release reports, and contaminated public wells. A reasonable attempt will also be made to interview at least one staff member of any one of the following types of local government agencies: fire department, health agency, planning department, building department, or environmental department. As an alternative, a written request for information may be submitted to the local agencies.

The scope of work proposed herein includes up to two hours of regulatory agency file and/or records review. If the results of this initial review appear to warrant a more extensive review of applicable regulatory agency files and/or records, a cost estimate will be provided to the client for pre-approval. Review of regulatory files and/or records, when authorized, will be for the purpose of identifying RECs. Please note that all requested files may not be available from regulatory agencies within the client's requested project schedule.

Site and Adjoining/Surrounding Property Reconnaissance

A site reconnaissance will be conducted to identify RECs. The reconnaissance will consist of visual observations of the site from the site boundaries and selected interior portions of the site. The site reconnaissance will include, where applicable, an interview with site personnel who the client has identified as having knowledge of the uses and physical characteristics of the site. Pertinent observations from the site reconnaissance will be documented including:

- Site description
- General site operations
- Aboveground chemical or waste storage
- Visible underground chemical or waste storage, drainage, or collection systems
- Electrical transformers
- Obvious releases of hazardous substances or petroleum products

The adjoining property reconnaissance will consist of visual observations of the adjoining/surrounding properties from the site boundaries and accessible public right-of-ways.

Report Preparation

A PDF-formatted copy of the final report will be submitted that presents the results of this assessment, based upon the scope of services and limitations described herein. The final report will be signed by an environmental professional responsible for the Phase I ESA, and the report will contain an environmental professional statement as required by 40 CFR 312.21(d). Recommendations will be developed as part of the Phase I ESA scope of services. Prior to final report issuance, the client may request paper copies at a charge of \$50.00 per report copy.

2.5 Reliance

The ESA report will be prepared for the exclusive use and reliance of the City of Jonesboro, GA (client). Reliance by any other party is prohibited without the written authorization of the client and Terracon.

If the client is aware of additional parties that will require reliance on the ESA report, the names, addresses, and relationship of these parties should be provided for Terracon approval prior to the time of authorization to proceed. Terracon may grant reliance on the ESA report to those approved parties upon receipt of a fully executed Reliance Agreement (available upon request) and receipt of information requested in the Reliance Agreement. If, in the future, the client and Terracon consent to reliance on the ESA by a third party, Terracon may grant reliance upon receipt of a fully executed Reliance Agreement, requested information and receipt of an additional minimum fee of \$250.00 per relying party.

Reliance on the ESA by the client and all authorized parties will be subject to the terms, conditions, and limitations stated in the Agreement for Services, sections of this proposal incorporated therein, the Reliance Agreement, and ESA report. The limitation of liability defined in the Agreement for Services is the aggregate limit of Terracon's liability to the client and all relying parties.

Continued viability of the report is subject to ASTM E1527-13 Sections 4.6 and 4.8. If the ESA will be used by a different user (third party) than the user for whom the ESA was originally prepared, the third party must also satisfy the user's responsibilities in Section 6 of ASTM E1527-13.

2.6 Scope and Report Limitations

The findings and conclusions presented in the final report will be based on the site's current utilization and the information collected as discussed in this proposal. Please note that we do not warrant database or third party information (such as from interviewees) or regulatory agency information used in the compilation of reports.

Phase I ESAs, such as the one proposed for this site, are of limited scope, are noninvasive, and cannot eliminate the potential that hazardous, toxic, or petroleum substances are present or have been released at the site beyond what is identified by the limited scope of this ESA. In conducting the limited scope of services described herein, certain sources of information and public records will not be reviewed. It should be recognized that environmental concerns may be documented in public records that are not reviewed. This ESA does not include subsurface or other invasive assessments, vapor intrusion assessments or indoor air quality assessments (i.e. evaluation of

No ESA can wholly eliminate uncertainty regarding the potential for RECs. The limitations herein must be considered when the user of this report formulates opinions as to risks associated with the site. No warranties, express or implied, are intended or made.

An evaluation of significant data gaps will be based on the information available at the time of report issuance, and an evaluation of information received after the report issuance date may result in an alteration of our opinions and conclusions. We have no obligation to provide information obtained or discovered by us after the date of the report, or to perform any additional services, regardless of whether the information would affect any conclusions, recommendations, or opinions in the report. ("Consultant") for Services to be provided by Consultant for Client on the Phase I Environmental Site Assessment, 108 Broad Street, Jonesboro, Clayton County, Georgia project ("Project"), as described in the Project Information section of Consultant's Proposal dated 05/17/2017 ("Proposal") unless the Project is otherwise described in Exhibit A to this Agreement (which section or Exhibit is incorporated into this Agreement).

1. **Scope of Services.** The scope of Consultant's services is described in the Scope of Services section of the Proposal ("Services"), unless Service are otherwise described in Exhibit B to this Agreement (which section or exhibit is incorporated into this Agreement). Portions of the Services may be subcontracted. Consultant's Services do not include the investigation or detection of, nor do recommendations in Consultant's reports address the presence or prevention of biological pollutants (e.g., mold, fungi, bacteria, viruses, or their byproducts) or occupant safety issues, such as vulnerability to natural disasters, terrorism, or violence. If Services include purchase of software, Client will execute a separate software license agreement. Consultant's findings, opinions, and recommendations are based solely upon data and information obtained by and furnished to Consultant at the time of the Services.
2. **Acceptance/ Termination.** Client agrees that execution of this Agreement is a material element of the consideration Consultant requires to execute the Services, and if Services are initiated by Consultant prior to execution of this Agreement as an accommodation for Client at Client's request, both parties shall consider that commencement of Services constitutes formal acceptance of all terms and conditions of this Agreement. Additional terms and conditions may be added or changed only by written amendment to this Agreement signed by both parties. In the event Client uses a purchase order or other form to administer this Agreement, the use of such form shall be for convenience purposes only and any additional or conflicting terms it contains are stricken. This Agreement shall not be assigned by either party without prior written consent of the other party. Either party may terminate this Agreement or the Services upon written notice to the other. In such case, Consultant shall be paid costs incurred and fees earned to the date of termination plus reasonable costs of closing the Project.
3. **Change Orders.** Client may request changes to the scope of Services by altering or adding to the Services to be performed. If Client so requests, Consultant will return to Client a statement (or supplemental proposal) of the change setting forth an adjustment to the Services and fees for the requested changes. Following Client's review, Client shall provide written acceptance. If Client does not follow these procedures, but instead directs, authorizes, or permits Consultant to perform changed or additional work, the Services are changed accordingly and Consultant will be paid for this work according to the fees stated or its current fee schedule. If project conditions change materially from those observed at the site or described to Consultant at the time of proposal, Consultant is entitled to a change order equitably adjusting its Services and fee.
4. **Compensation and Terms of Payment.** Client shall pay compensation for the Services performed at the fees stated in the Compensation section of the Proposal unless fees are otherwise stated in Exhibit C to this Agreement (which section or Exhibit is incorporated into this Agreement). If not stated in either, fees will be according to Consultant's current fee schedule. Fee schedules are valid for the calendar year in which they are issued. Fees do not include sales tax. Client will pay applicable sales tax as required by law. Consultant may invoice Client at least monthly and payment is due upon receipt of invoice. Client shall notify Consultant in writing, at the address below, within 15 days of the date of the invoice if Client objects to any portion of the charges on the invoice, and shall promptly pay the undisputed portion. Client shall pay a finance fee of 1.5% per month, but not exceeding the maximum rate allowed by law, for all unpaid amounts 30 days or older. Client agrees to pay all collection-related costs that Consultant incurs, including attorney fees. Consultant may suspend Services for lack of timely payment. It is the responsibility of Client to determine whether federal, state, or local prevailing wage requirements apply and to notify Consultant if prevailing wages apply. If it is later determined that prevailing wages apply, and Consultant was not previously notified by Client, Client agrees to pay the prevailing wage from that point forward, as well as a retroactive payment adjustment to bring previously paid amounts in line with prevailing wages. Client also agrees to defend, indemnify, and hold harmless Consultant from any alleged violations made by any governmental agency regulating prevailing wage activity for failing to pay prevailing wages, including the payment of any fines or penalties.
5. **Third Party Reliance.** This Agreement and the Services provided are for Consultant and Client's sole benefit and exclusive use with no third party beneficiaries intended. Reliance upon the Services and any work product is limited to Client, and is not intended for third parties other than those who have executed Consultant's reliance agreement, subject to the prior approval of Consultant and Client.
6. **LIMITATION OF LIABILITY.** CLIENT AND CONSULTANT HAVE EVALUATED THE RISKS AND REWARDS ASSOCIATED WITH THIS PROJECT, INCLUDING CONSULTANT'S FEE RELATIVE TO THE RISKS ASSUMED, AND AGREE TO ALLOCATE CERTAIN OF THE ASSOCIATED RISKS. TO THE FULLEST EXTENT PERMITTED BY LAW, THE TOTAL AGGREGATE LIABILITY OF CONSULTANT (AND ITS RELATED CORPORATIONS AND EMPLOYEES) TO CLIENT AND THIRD PARTIES GRANTED RELIANCE IS LIMITED TO THE GREATER OF \$50,000 OR CONSULTANT'S FEE, FOR ANY AND ALL INJURIES, DAMAGES, CLAIMS, LOSSES, OR EXPENSES (INCLUDING ATTORNEY AND EXPERT FEES) ARISING OUT OF CONSULTANT'S SERVICES OR THIS AGREEMENT. PRIOR TO ACCEPTANCE OF THIS AGREEMENT AND UPON WRITTEN REQUEST FROM CLIENT, CONSULTANT MAY NEGOTIATE A HIGHER LIMITATION FOR ADDITIONAL CONSIDERATION IN THE FORM OF A SURCHARGE TO BE ADDED TO THE AMOUNT STATED IN THE COMPENSATION SECTION OF THE PROPOSAL. THIS LIMITATION SHALL APPLY REGARDLESS OF AVAILABLE PROFESSIONAL LIABILITY INSURANCE COVERAGE, CAUSE(S), OR THE THEORY OF LIABILITY, INCLUDING NEGLIGENCE, INDEMNITY, OR OTHER RECOVERY. THIS LIMITATION SHALL NOT APPLY TO THE EXTENT THE DAMAGE IS PAID UNDER CONSULTANT'S COMMERCIAL GENERAL LIABILITY POLICY.
7. **Indemnity/Statute of Limitations.** Consultant and Client shall indemnify and hold harmless the other and their respective employees from and against legal liability for claims, losses, damages, and expenses to the extent such claims, losses, damages, or expenses are legally determined to be caused by their negligent acts, errors, or omissions. In the event such claims, losses, damages, or expenses are legally determined to be caused by the joint or concurrent negligence of Consultant and Client, they shall be borne by each party in proportion to its own negligence under comparative fault principles. Neither party shall have a duty to defend the other party, and no duty to defend is hereby created by this indemnity provision and such duty is explicitly waived under this Agreement. Causes of action arising out of Consultant's Services or this Agreement regardless of cause(s) or the theory of liability, including negligence, indemnity or other recovery shall be deemed to have accrued and the applicable statute of limitations shall commence to run not later than the date of Consultant's substantial completion of Services on the project.
8. **Warranty.** Consultant will perform the Services in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions in the same locale. **EXCEPT FOR THE STANDARD OF CARE PREVIOUSLY STATED, CONSULTANT MAKES NO WARRANTIES OR GUARANTEES, EXPRESS OR IMPLIED, RELATING TO CONSULTANT'S SERVICES AND CONSULTANT DISCLAIMS ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.**
9. **Insurance.** Consultant represents that it now carries, and will continue to carry: (i) workers' compensation insurance in accordance with the laws of the states having jurisdiction over Consultant's employees who are engaged in the Services, and employer's liability insurance (\$1,000,000); (ii)

commercial general liability insurance (\$1,000,000 occ / \$2,000,000 agg); (iii) automobile liability insurance (\$1,000,000 B.I. and P.D. combined sing limit); and (iv) professional liability insurance (\$1,000,000 claim / agg). Certificates of insurance will be provided upon request. Client and Consultant shall waive subrogation against the other party on all general liability and property coverage.

- 10. WAIVE CONSEQUENTIAL DAMAGES.** NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR LOSS OF PROFITS OR REVENUE; LOSS OF USE OR OPPORTUNITY; LOSS OF GOOD WILL; COST OF SUBSTITUTE FACILITIES, GOODS, OR SERVICES; COST OF CAPITAL; OR FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT, PUNITIVE, OR EXEMPLARY DAMAGES.
- 11. Dispute Resolution.** Client shall not be entitled to assert a Claim against Consultant based on any theory of professional negligence unless and until Client has obtained the written opinion from a registered, independent, and reputable engineer, architect, or geologist that Consultant has violated the standard of care applicable to Consultant's performance of the Services. Client shall provide this opinion to Consultant and the parties shall endeavor to resolve the dispute within 30 days, after which Client may pursue its remedies at law. This Agreement shall be governed by and construed according to Kansas law.
- 12. Subsurface Explorations.** Subsurface conditions throughout the site may vary from those depicted on logs of discrete borings, test pits, or other exploratory services. Client understands Consultant's layout of boring and test locations is approximate and that Consultant may deviate a reasonable distance from those locations. Consultant will take reasonable precautions to reduce damage to the site when performing Services; however, Client accepts that invasive services such as drilling or sampling may damage or alter the site. Site restoration is not provided unless specifically included in the Services.
- 13. Testing and Observations.** Client understands that testing and observation are discrete sampling procedures, and that such procedures indicate conditions only at the depths, locations, and times the procedures were performed. Consultant will provide test results and opinions based on tests and field observations only for the work tested. Client understands that testing and observation are not continuous or exhaustive, and are conducted to reduce - not eliminate - project risk. Client shall cause all tests and inspections of the site, materials, and Services performed by Consultant to be timely and properly scheduled in order for the Services to be performed in accordance with the plans, specifications, contract documents, and Consultant's recommendations. No claims for loss or damage or injury shall be brought against Consultant by Client or any third party unless all tests and inspections have been so performed and Consultant's recommendations have been followed. Unless otherwise stated in the Proposal, Client assumes sole responsibility for determining whether the quantity and the nature of Services ordered by Client is adequate and sufficient for Client's intended purpose. Client is responsible (even if delegated to contractor) for requesting services, and notifying and scheduling Consultant so Consultant can perform these Services. Consultant is not responsible for damages caused by Services not performed due to a failure to request or schedule Consultant's Services. Consultant shall not be responsible for the quality and completeness of Client's contractor's work or their adherence to the project documents, and Consultant's performance of testing and observation services shall not relieve Client's contractor in any way from its responsibility for defects discovered in its work, or create a warranty or guarantee. Consultant will not supervise or direct the work performed by Client's contractor or its subcontractors and is not responsible for their means and methods. The extension of unit prices with quantities to establish a total estimated cost does not guarantee a maximum cost to complete the Services. The quantities, when given, are estimates based on contract documents and schedules made available at the time of the Proposal. Since schedule, performance, production, and charges are directed and/or controlled by others, any quantity extensions must be considered as estimated and not a guarantee of maximum cost.
- 14. Sample Disposition, Affected Materials, and Indemnity.** Samples are consumed in testing or disposed of upon completion of the testing procedures (unless stated otherwise in the Services). Client shall furnish or cause to be furnished to Consultant all documents and information known or available to Client that relate to the identity, location, quantity, nature, or characteristic of any hazardous waste, toxic, radioactive, or contaminated materials ("Affected Materials") at or near the site, and shall immediately transmit new, updated, or revised information as it becomes available. Client agrees that Consultant is not responsible for the disposition of Affected Materials unless specifically provided in the Services, and that Client is responsible for directing such disposition. In no event shall Consultant be required to sign a hazardous waste manifest or take title to any Affected Materials. Client shall have the obligation to make all spill or release notifications to appropriate governmental agencies. The Client agrees that Consultant neither created nor contributed to the creation or existence of any Affected Materials conditions at the site and Consultant shall not be responsible for any claims, losses, or damages allegedly arising out of Consultant's performance of Services hereunder, or for any claims against Consultant as a generator, disposer, or arranger of Affected Materials under federal, state, or local law or ordinance.
- 15. Ownership of Documents.** Work product, such as reports, logs, data, notes, or calculations, prepared by Consultant shall remain Consultant's property. Proprietary concepts, systems, and ideas developed during performance of the Services shall remain the sole property of Consultant. Files shall be maintained in general accordance with Consultant's document retention policies and practices.
- 16. Utilities.** Client shall provide the location and/or arrange for the marking of private utilities and subterranean structures. Consultant shall take reasonable precautions to avoid damage or injury to subterranean structures or utilities. Consultant shall not be responsible for damage to subterranean structures or utilities that are not called to Consultant's attention, are not correctly marked, including by a utility locate service, or are incorrectly shown on the plans furnished to Consultant.
- 17. Site Access and Safety.** Client shall secure all necessary site related approvals, permits, licenses, and consents necessary to commence and complete the Services and will execute any necessary site access agreement. Consultant will be responsible for supervision and site safety measures for its own employees, but shall not be responsible for the supervision or health and safety precautions for any other parties, including Client, Client's contractors, subcontractors, or other parties present at the site.

Council to consider zoning appeal as filed by Towya Roberts of Plait to house a beauty salon at 217 N. Main Street.

Requirement for Board Action (Cite specific Council policy, statute or code requirement)

Article XI of the Zoning Code (Appeals and Variances)

Is this Item Goal Related? (If yes, describe how this action meets the specific Board Focus Area or Goal)

Yes Community Planning, Neighborhood and Business Revitalization

Summary & Background

(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)

History:

The applicant is seeking to occupy the property located at 217 N. Main Street. The subject property was previously used as Beauty Salon. Very recently the applicant applied for zoning verification to house a salon and also a retail component for natural hair products. At the February 13, 2017 Regular Meeting, our Mayor & Council voted to remove barber & beauty salons from both the H-1 & H-2 Districts. Due to that code amendment, our "Table of Uses" does not allow for this particular use in the H1 District. Upon meeting with the applicant, I advised them that the grandfathering "non-conformance" clause was not applicable in this case as the previous business had vacated the premises over 6 months ago.

Table 1a

NAICS Code	USES	R-2	R-4	R-C	R-A	RM	H-1	H-2	O&I	MX	C-1	C-2	M-1	Code Section
812112	Beauty Salons	N	N	N	N	N	N	N	N	P	P	P	N	

(a)

Purpose of district. The purpose of the H-1 historic district is to provide for retail and residential uses that benefit from close proximity to each other and that will generate pedestrian activity in the city's traditional downtown core. Development and redevelopment in this district is intended to preserve and enhance the historic character of the area while promoting the goals of the Livable Centers Initiative Study.

(b)

Delineation of historic district. The historic district is delineated and duly designated on the official zoning map of the city. Areas located within the historic district must comply with the requirements of this section.

Based upon our Code, an applicant can appeal my decision under Article XI of the Zoning Code (Appeals and variances). This would not be considered a variance because 86-344(6) provides that "[n]o variance may permit a use of land, buildings or structures not permitted by right in the district involved." Since his appeal would be of a use of land that is nonpermitted, a variance would not be allowed. The applicant is required to go through an appeal hearing before mayor & council as set forth in Article XI, Section 86-344:

217 N. Main was previously used as a beauty salon since 1984. The previous tenant of 217 N. Main closed their business in September 2016.

We were told by Cable that the city wish to maintain the look and feel of the Historic area. After our meeting with Ricky Clark, we learned that the city felt like Beauty Salons have not been viable businesses in the past. We were told they are in business one or two years and gone the next.

We are certain our business will only add to the historic look and feel of the city, as the two buildings on the side of 217 N. Main has been vacant for approximately 15 years.

We ask for reconsideration in this matter. Ricky Clark did say he could approve 80% of what we offer in our business.

Summary & Background

(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)

The applicant, Talloh King Gontee is applying for a new consumption on premises of distilled spirits and beer/wine for the "Tylexine Cuisine" restaurant located at 8558 Tara Blvd.

Background:

1. This location currently has an occupational tax license to operate an events facility.
2. Applicant is requesting to dispense distilled spirits, beer & wine.
3. The subject restaurant is located within a heavy-trafficked commercial area. Surrounding zoning, general plan land use designations and existing uses are denoted as a C-2 highway commercial district.
4. *Purpose.* The C-2 highway commercial district is established to accommodate intense retail and service commercial uses along Jonesboro's arterial highways. A broad range of such uses anticipates traffic from surrounding areas traveling through the city and affords a broad segment of the business community access to the large customer volumes associated with such locations. The automobile is the principal means of transit for shoppers in this district, and convenient on-premises parking is a primary concern. Given the value of arterial locations intended to capture heavy retail traffic, such industrial uses as manufacturing, distribution and processing are prohibited in order to reserve high visibility and enhanced access locations for highway commercial uses.

Facts & Issues:

1. Ricky Clark, City Manager has reviewed the application packet. All requirements, per Chapter 6- Alcoholic Beverages, were met.
2. The annual license fee will be \$4,500.00
3. The Jonesboro Chief of Police has conducted a computerized criminal history records check for the applicant and recommends approval based upon the background information received.
4. As required by Section 6-39, the applicant has submitted the required land survey. Per Section 6-39, for those establishments selling malt beverages and/or wine but no distilled spirits, a distance of no less than 100 yards from any school, church or education building is required. The survey presented shows that the nearest church (Shiloh Baptist Church) is 107 yards away, nearest school (Lee Street) 1003 yards away.
