CONSENT AGENDA

At this time, Mayor Day presented a quote for advertising in Focus Atlanta. Capital Analytics is a three-part media platform, specializing in annual business guides. The cost of this publication is \$7,000 and will be widely distributed and used as a tool for economic development and promotion of our community. Councilwoman Sebo-Hand & Powell advised that they were in favor of the full-page. Councilwoman Messick inquired as to the benefit of the City advertising last year. Mr. Clark noted that while we did see an uptick in development, there are no metrics to ascertain if those came from the advertisement.

6. Discussion regarding Annual Leave Plus Program.

RESULT: CONSENT AGENDA

Mr. Clark advised City council that with the recent adoption of the Annual Leave Plus program, we failed to consider the applicable caps in accruing annual leave. At current, employees are only allowed to accrue up to 360 hours of annual leave and with the current accumulation of Annual Leave Plus hours, some employees would exceed the maximum cap. Mr. Clark recommended that a policy amendment be accepted to allow the following: "Should an employee accruing Annual Leave Plus reach the cap, that time shall be transferred to their Sick Leave Bank. This shall not apply after the Annual Leave Plus accumulation and the State of Emergency is lifted." Council is in favor of such policy amendment.

7. Discussion regarding Change Order for Broad Street Plaza Concept.

Mr. Clark noted that this Change Request is relative to the addition of a sidewalk to the East side of the Broad Street Plaza project. The sidewalk will allow for direct access to the businesses that line Main Street. Mr. Clark noted that the cost of this change order is roughly \$11,000. Once approved, Mr. Clark will communicate with the businesses to see if they would like to add additional concrete pads to their property for direct connection.

8. Councilwoman Sartor requests discussion regarding recognition of Valedictorian, Salutatorian and Star Student from Jonesboro High School.

RESULT: CONSENT AGENDA

Councilwoman Sartor requested Mayor & Council's consideration to recognize the Valedictorian, Salutatorian & the Star Student at Jonesboro High School. After discussion, it was recommended that \$100 Book Scholarship be funded, payable in the fall for each of the categories. All fund would be paid once enrollment status is verified and the student is registered at College. Councilman Wise agreed to provide 50% of his remaining Councilmember Initiative Funds for this purpose

Summary & Background

(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)

In 2017 The Atlanta Regional Commission (ARC) awarded \$800,000 in Livable Centers Initiative (LCI) study grants to nine metro Atlanta communities and \$12 million in transportation funding to 11 other communities that have previously implemented completed LCI studies. Of the \$800,000, the City of Jonesboro was awarded \$80,000 to complete a major plan update that would account for the new MARTA bus service in the area and begin the process of planning for a future rail station, along with the expected economic growth. Over the course of several months, the City hosted focus group sessions, public meetings and facilitated steering committee meetings to ensure that it was a community oriented process.

Since the time of adoption and the implementation of our LCI, we have found a great need to increase the capacity for senior housing in our community based upon current economics. In connection with our aggressive economic development objectives, our focus has to remain on affordability. The growing senior population with longer life expectancy will drive increasing demand for affordable senior housing across the nation. To respond, developers, service providers and government must collaborate to both increase production of new senior housing, and preserve and retrofit existing housing stock. At the same time, they must design and fund support services to enable seniors to age in place. As the senior population grows, the spectrum of housing options is expanding. Housing policy and practice is evolving to provide seniors with real choice to maintain independent living, delivering attractive housing and effective services at substantially less cost than traditional options including assisted and skilled nursing facilities.

In order to encourage redevelopment along this corridor, and in recognition of the need for affordable senior housing in the downtown, the city has introduced a new "Active Senior" district overlay for certain properties near the intersection of Main Street and North Avenue. Since the 2017 Blueprint Jonesboro LCI Update was completed, a Supplemental LCI Study was adopted in March 2019. This study, focused primarily on the downtown core area, included market study projections for housing demand in the larger Downtown Study Area.

For-Sale Residential Demand

Downtown Jonesboro has opportunity for a small for-sale residential development of a cottage and/or townhouse product. In the short-term, downtown Jonesboro has the potential to absorb up to 30 for-sale residential units in the study

Rental Residential Demand

Downtown Jonesboro shows opportunity for capitalizing on three market segments of rental residential.

Market-Rate Rental Apartments

- » The lack of new apartment construction in Clayton County over the past five years means there may be pent-up demand for new market-rate rental housing in the area.
- » Some level of demand exists in Clayton County for higher-income renters seeking a walkable, mixed use development, although similar, newer product is currently non-existent in Clayton County. Downtown Jonesboro has the potential to capture this segment of these renters as part of its increased emphasis on a vibrant and walkable core, which is reflected in the market absorption estimates.
- » Downtown Jonesboro has the potential to absorb up to 240 units of market-rate rental apartments over the next five years.
- » These units should be priced between \$1,000 - \$2,000/month.

Senior Housing

- » The senior population (ages 65+) of Clayton County is expected to more than double by 2040, from 22,981 seniors in 2015, to 55,597 in 2040, according to the Atlanta Regional Commission.
- » Downtown Jonesboro has the potential to absorb up to 230 units of senior rental housing over the next five years.
- » Clayton County has only two senior rental

developments, in Riverdale and Forest Park.

Jonesboro does not currently offer any senior rental housing, providing a market opportunity for the downtown area.

Affordable Housing

» Downtown Jonesboro has the potential to absorb up to 270 units of affordable rental housing over the next five years.

» This potential could be realized with affordable-only development or included in mixed-income rental developments.

» These units should be priced below \$1,000/month.

Based upon the data above, we are requesting an amendment to our Livable Centers Initiative to accommodate growth trends.

The Atlanta Regional Commission (ARC) requires local governments to adopt, by resolution, a five year update that includes an Evaluation and Appraisal Report and an Implementation Plan with an updated (5) year Action Plan to be submitted five years after the plan is approved by the ARC ("LCI Five Year Plan to be submitted five years after the plan is approved by the ARC ("LCI Five Year Plan Update");

COMMUNITY RESOURCES //

Community resources include places where people gather, such as schools and parks, or public facilities that provide important and necessary services for everyday life. Downtown Jonesboro has an unusually diverse collection of community resources within its downtown, despite the relocation of the county courthouse to Tara Boulevard, which removed a significant amount of activity from the downtown.

The analysis map at right shows how City Hall, the Fire Department, and the Post Office are disconnected from public facilities further south, such as the Police Department and City Council Chambers. The Historic County Courthouse is located across the railroad tracks from most other public buildings. While these resources are less than a 10-minute walk apart, they feel disconnected from one another.

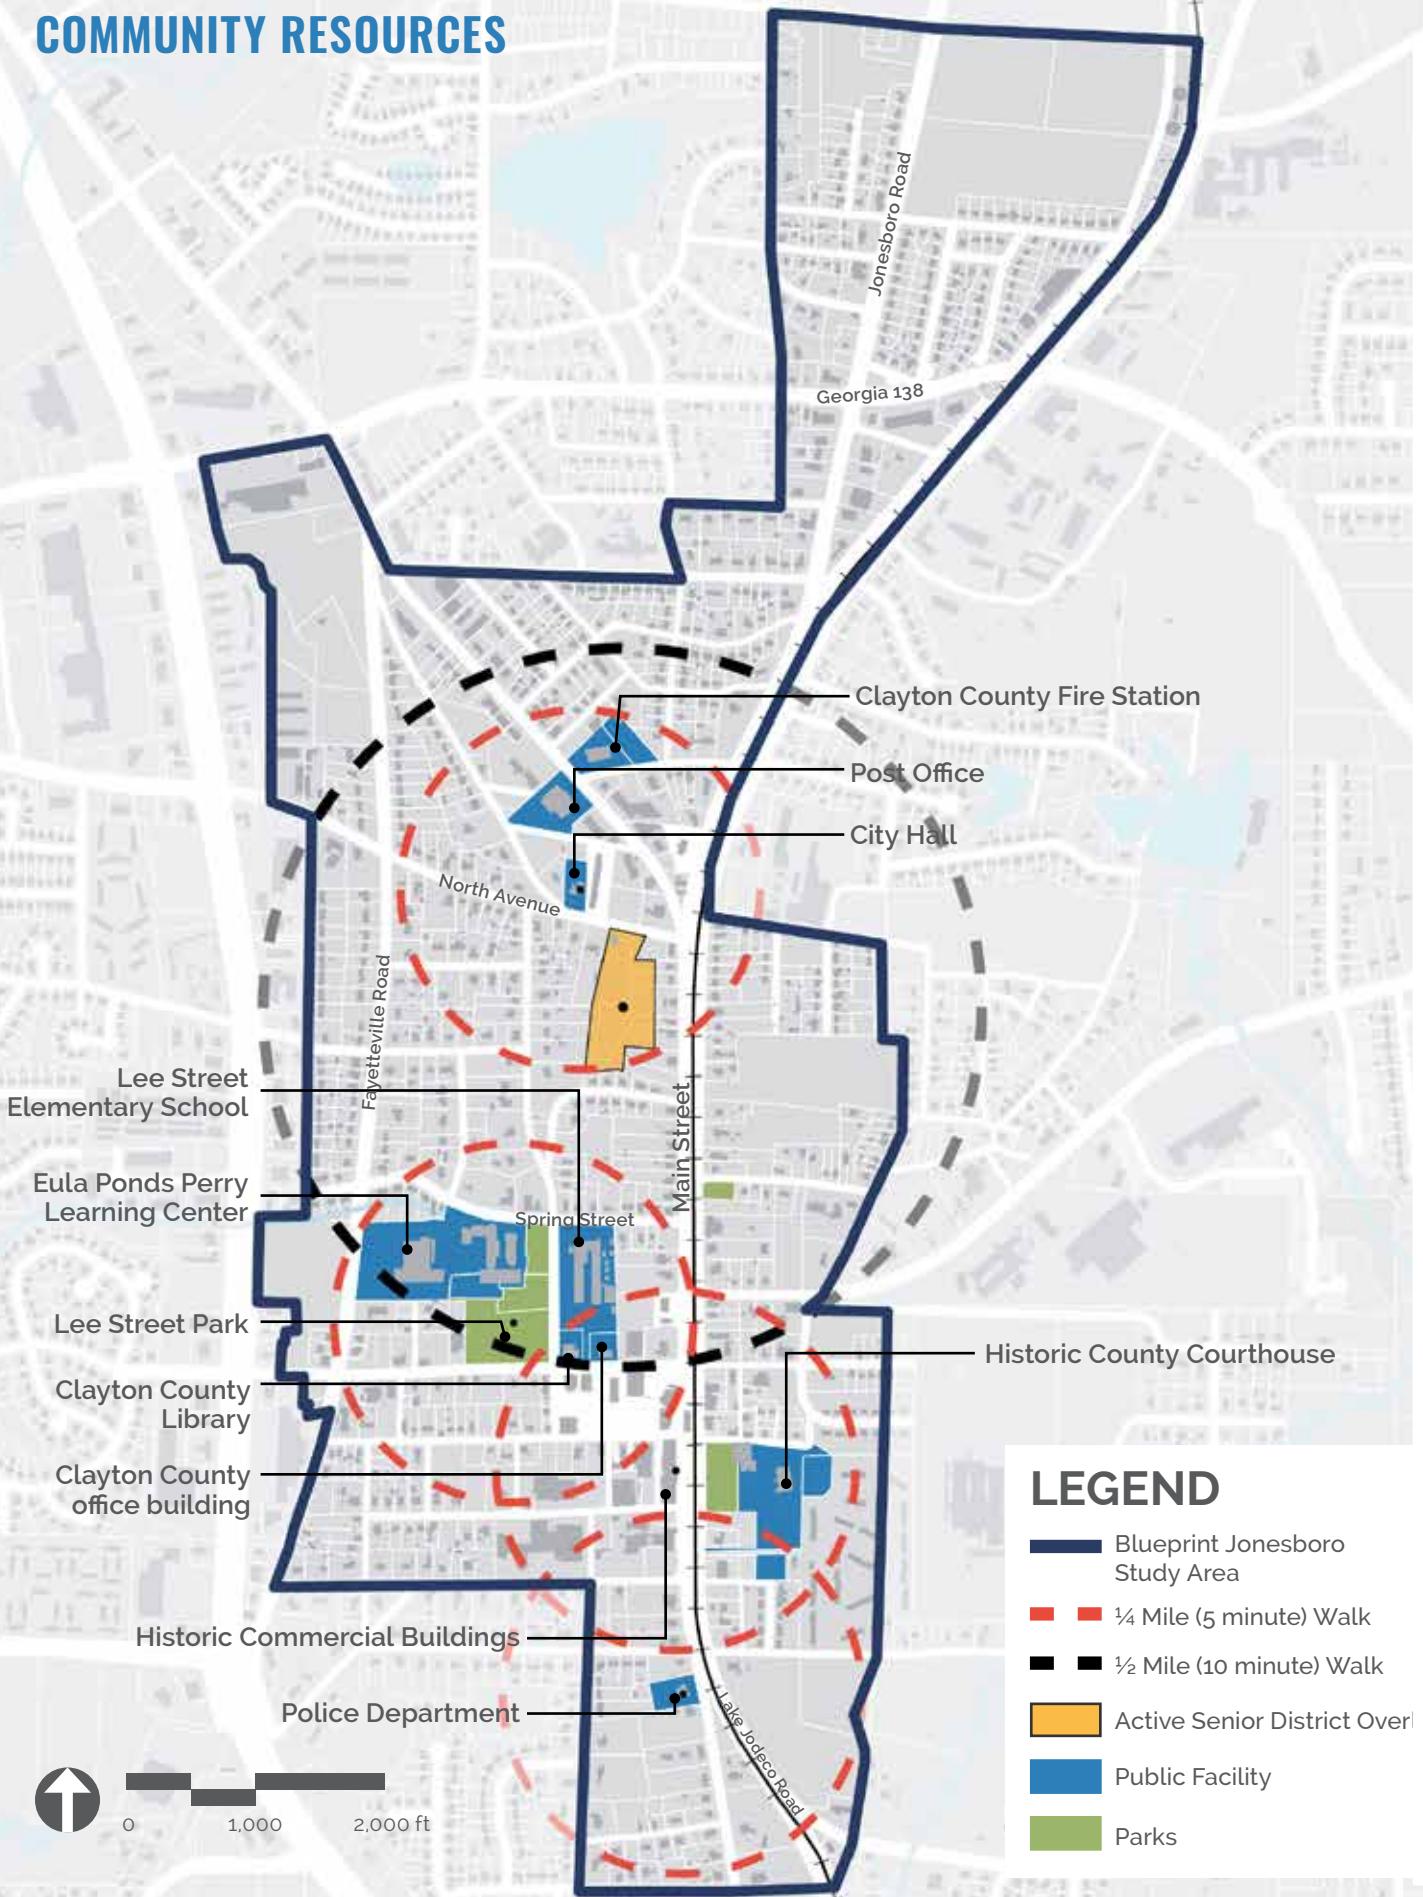

Finally, Lee Street Park serves as a gathering place for those who attend or visit the adjacent schools and public library, creating a hub of activity on weekday afternoons.

>> Strengthening the Spine

Main Street serves as the North-South "spine" of Jonesboro's downtown and its identity. The roughly one-mile segment between the Police Department building and North Avenue is the confluence of several major collector roads that feed traffic into downtown, and showcases a number of the city's historic architectural landmarks. It constitutes an important redevelopment opportunity that complements the "core area" concepts presented later in this document.

In order to encourage redevelopment along this corridor, and in recognition of the need for affordable senior housing in the downtown, the city has introduced a new "Active Senior" district overlay for certain properties near the intersection of Main Street and North Avenue (see pg 58). This overlay district is highlighted on the Community Resources map on the next page. An additional zoning overlay and design standards are contemplated for North Main Street, north of the Active Senior area (see pg 59).

COMMUNITY RESOURCES

NOT SUSCEPTIBLE	SOMEWHAT SUSCEPTIBLE	HIGHLY SUSCEPTIBLE
<ul style="list-style-type: none"> Good appearance No signs of decay Unique character 	<ul style="list-style-type: none"> Average to fair condition Cosmetic decline Signs of deterioration 	<ul style="list-style-type: none"> Distressed or failing Highly visible decay Vacant lot

SUSCEPTIBILITY TO CHANGE //

As time passes, the use of lots and buildings is expected to change in downtown Jonesboro. The map at right shows each parcel based on its likelihood to change in the near future.

» Land Not Susceptible to Change

This category includes historic structures not in need of rehabilitation, newly constructed buildings, single-family housing, and civic uses such as parks or the courthouse. Underutilized historic structures in this category could represent opportunities for adaptive reuse, while maintaining their historic character. Other parcels are stable and not likely to change in the near future.

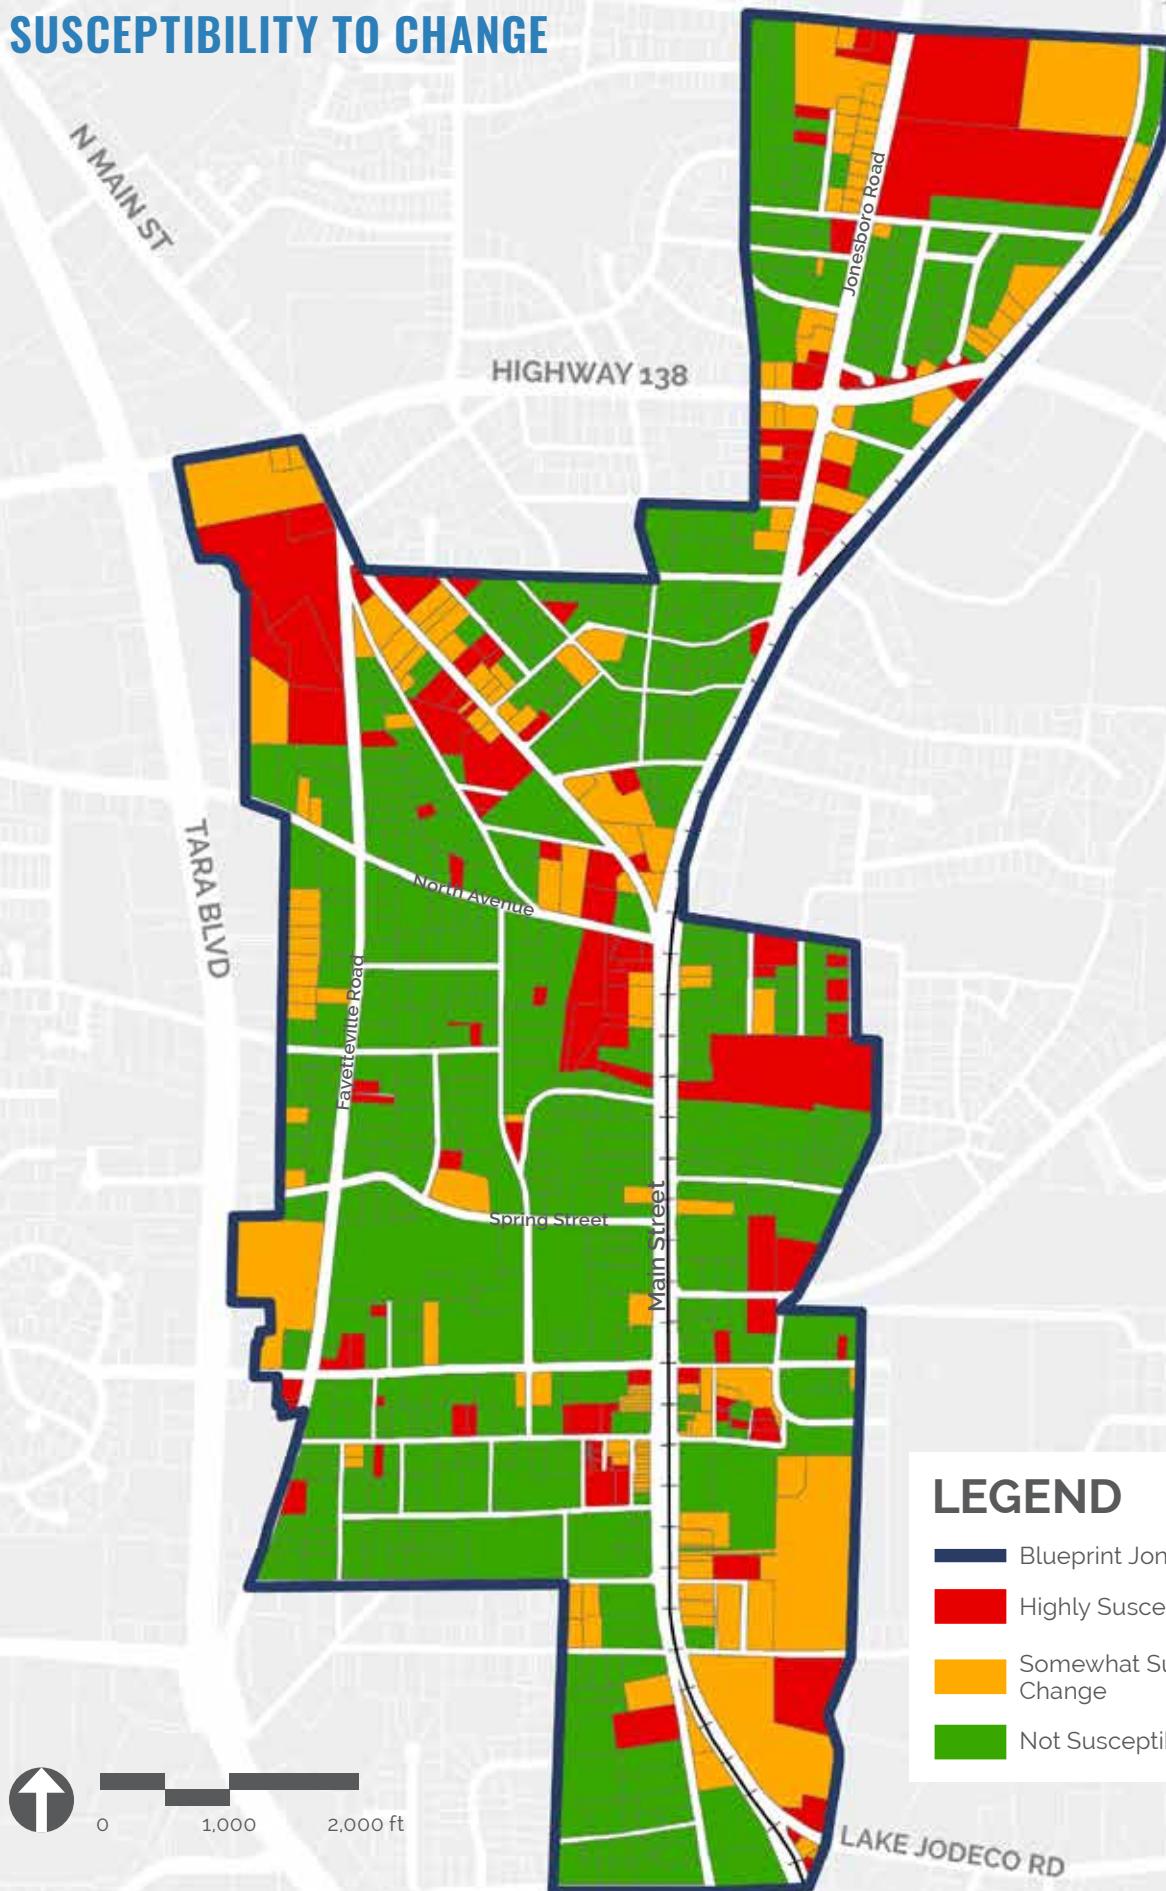

» Land Somewhat Susceptible to Change

This category includes structures that are not historically significant or have historically inappropriate renovations and or additions, land uses that can relocate, or buildings starting to show signs of deterioration.

» Land Highly Susceptible to Change

This category includes vacant land, structures that are distressed or failing, surface parking lots, or development that does not reflect the highest or best use of the land and is not likely to remain for the foreseeable future.

SUSCEPTIBILITY TO CHANGE

CONNECTIVITY //

Downtown Jonesboro has an ample network of local streets that generally serve cars and trucks well and provide multiple routes to each destination, especially near Lee Street Park and the Historic Main Street area. The railroad bisects the downtown, reduces connectivity, and creates safety issues.

The lack of sidewalks and safe places to bike in many locations means that most people in Jonesboro drive to their destination, even if it is a short distance away. There is a good network of sidewalks near Lee Street Park and Main Street, but this breaks down farther north. There are very limited safe, defined pedestrian crossings of the railroad.

MARTA buses serve the study area with numerous bus stops. 193 runs along Jonesboro Road and North Avenue and connects downtown Jonesboro to Clayton State University, Forest Park, and East Point. There is also a GRTA park and ride facility just east of downtown Jonesboro that provides commuter bus service to Atlanta and Hampton via routes 440 and 441.

Local stakeholders expressed some concerns about traffic in downtown Jonesboro, most of which is generated by visitors and those doing business rather than local residents.

EXISTING INFRASTRUCTURE

3.1 METHODOLOGY

The recommendations of Blueprint Jonesboro are based on four inputs. They offer a visionary yet realistic plan for sustainable growth that will benefit the future of the City of Jonesboro.

1. Previous plans
2. Existing conditions
3. Public input
4. Planning team input

>> Policies & Projects

There are two types of plan recommendations:

- **Policies** are guidelines that provide direction for the implementation of the plan's vision. They often support specific implementation projects and should be the basis for actions by the City. Policies should also guide the private sector, especially to the extent that they define plan aspirations.
- **Projects** are specific tasks, such as transportation improvements, with a defined cost and time frame.

3.2 FRAMEWORK PLAN

The framework plan on the following page is intended to be a general guide for the character of redevelopment within the study area. A description of each category is provided below. Sample photos on the following pages, show options for what may be appropriate in each category.

Downtown Mixed Use

A walkable mix of restaurants, shops, offices, civic buildings, and commercial uses, including renovated and adaptive reuse of historic structures.

Mixed Use/ Creative Office

A mix of small scale art studios, maker spaces, loft offices, urban residences, restaurants, bars or a microbrewery, and shops.

Public/ Institutional

Public facilities such as schools, government buildings, churches, and museums.

Residential/ Office/ Retail

Adaptive reuse of historic houses to accommodate a mix of businesses.

Suburban Commercial

A mix of shops and restaurants in an attractive suburban form.

Medium Density Residential

Apartments, condominiums, senior housing, cottages, townhouses, and other similar residences compatible with a small town feel.

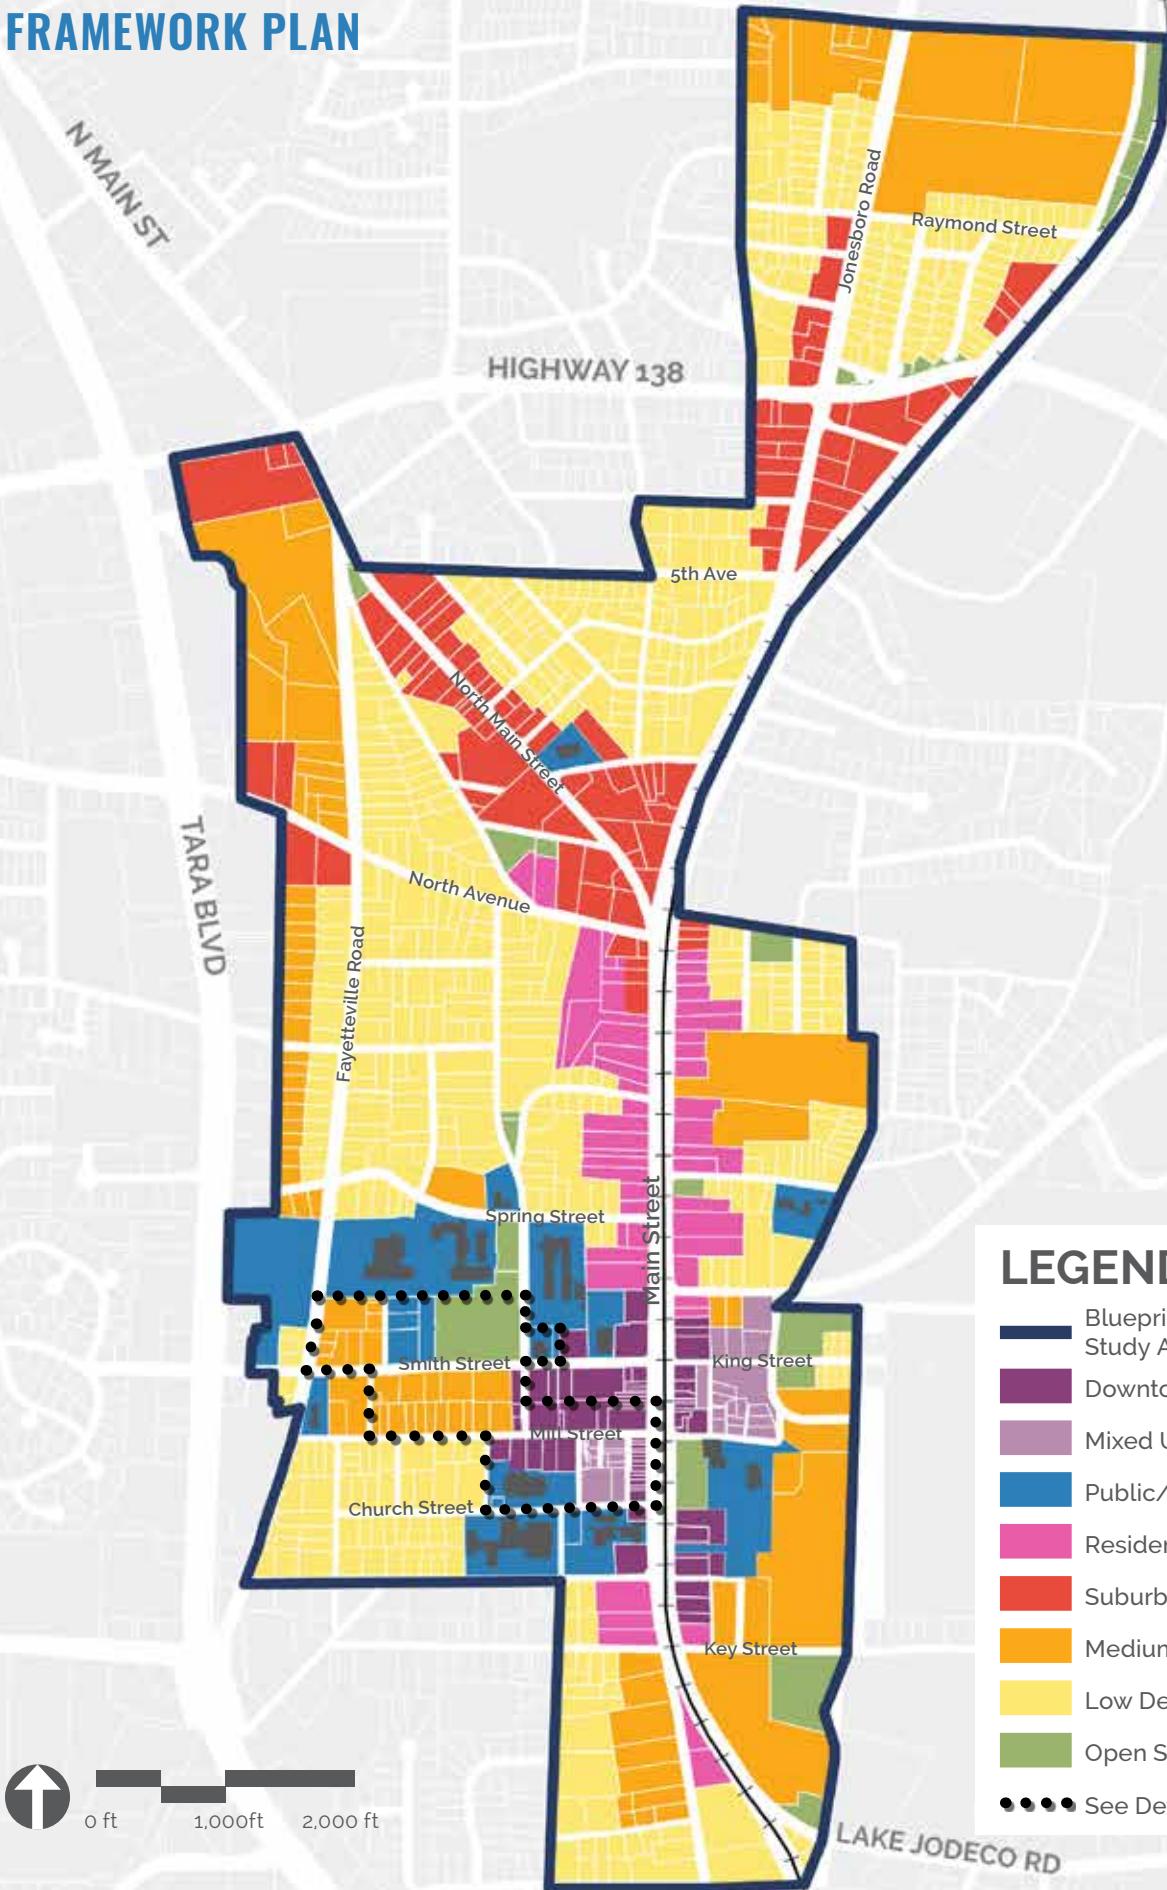

Low Density Residential

Historic and new single-family houses on larger lots.

Open Space/ Park

Parks, wooded land, and cemeteries.

>> Housing Demand

Since the 2017 Blueprint Jonesboro LCI Update was completed, a Supplemental LCI Study was adopted in March 2019. This study, focused primarily on the downtown core area, included market study projections for housing demand in the larger Downtown Study Area. These projections have been recently updated to reflect an increased demand, specifically for senior housing (see below, pg 37 of the Supplemental Study excerpted and updated). Due to Jonesboro's relatively low occupied housing value, as cited on page 30 of the 2017 LCI, a significant portion of this senior housing demand is in the affordable category. The Active Senior Overlay area (described on the next page) provides an optimum site for accommodating this expanded demand.

Downtown Jonesboro 5-Year Market Absorption Potential Summary UPDATE

	Units	Sq. Ft.
For-Sale Residential	30	
Rental Residential	740	
Market-Rate	240	
Senior	230	
Affordable	270	
Retail		17,500
Office		23,500

For-Sale Residential Demand

Downtown Jonesboro has opportunity for a small for-sale residential development of a cottage and/or townhouse product.

- » In the short-term, downtown Jonesboro has the potential to absorb up to 30 for-sale residential units in the study area.
- » These units should range from 1,000-1,750 square feet, at price points between \$150,000 - \$300,000.

Rental Residential Demand

Downtown Jonesboro shows opportunity for capitalizing on three market segments of rental residential.

Market-Rate Rental Apartments

- » The lack of new apartment construction in Clayton County over the past five years means there may be pent-up demand for new market-rate rental housing in the area.
- » Some level of demand exists in Clayton County for higher-income renters seeking a walkable, mixed-use development, although similar, newer product is currently non-existent in Clayton County. Downtown

Jonesboro has the potential to capture this segment of these renters as part of its increased emphasis on a vibrant and walkable core, which is reflected in the market absorption estimates.

- » Downtown Jonesboro has the potential to absorb up to 240 units of market-rate rental apartments over the next five years.
- » These units should be priced between \$1,000 - \$2,000/month.

Senior Housing

- » The senior population (ages 65+) of Clayton County is expected to more than double by 2040, from 22,981 seniors in 2015, to 55,597 in 2040, according to the Atlanta Regional Commission.
- » Downtown Jonesboro has the potential to absorb up to 230 units of senior rental housing over the next five years.
- » Clayton County has only two senior rental developments, in Riverdale and Forest Park. Jonesboro does not currently offer any senior rental housing, providing a market opportunity for the downtown area.

Affordable Housing

- » Downtown Jonesboro has the potential to absorb up to 270 units of affordable rental housing over the next five years.
- » This potential could be realized with affordable-only development or included in mixed-income rental developments.
- » These units should be priced below \$1,000/month.

PROJECTS

Active Senior Overlay District

Based on the map on page 25, the properties comprising the Active Senior District Overlay are identified as "highly susceptible to change". Per the Framework Plan (page 45), recommended uses would include "Residence/Office/Retail". Properties fronting along Main Street are excluded from the overlay in order to encourage commercial or mixed use redevelopment where viable. The overlay area, behind this frontage and consisting of vacant land, occupies a transitional zone between those more intensive uses and the established residential neighborhood to the west.

Accordingly, the properties on the map below are designated for inclusion in the overlay ordinance. The purpose of the overlay is to support a mix of housing styles and types on the same property, which are intended to meet the needs of the 55-year-old plus, active-living demographic. The zone will also provide a range of recreational amenities for its residents.

This site, with a 10-minute walking distance from downtown, Lee Street Park, and other amenities (see Community Resources map, page 19) is especially attractive for senior living because its residents can utilize the sidewalk improvements along Main Street recently completed under the LCI implementation program.

New construction at this location will also serve as a highly visible gateway development at the north end of the downtown and encourage other infill along Main Street (see "Strengthening the Spine", page 18).

The development anticipated by the Active Senior Overlay would support and comply with the following policies outlined elsewhere in this document:

LAND USE & DESIGN

- Encourage a diversity of high quality housing types
- Promote compact infill development to serve the community and increase the residential population
- Encourage appropriate transition between single-family areas and new development

CHARACTER & HISTORIC PRESERVATION

- Ensure appropriate materials, design, and planning in new development, consistent with Historic Commission precedent
- Provide opportunities for aging in place

ECONOMIC DEVELOPMENT / "Recruitment strategy for downtown residential"

- Identify properties for residential and mixed-use development. Locate regional developers that have successfully completed similar projects in the Greater Atlanta region and work with existing property owners to attract new development

North Main Street Overlay Zoning District

Develop a zoning overlay with design standards to ensure future development is appropriate and reflects the vision for the future of Jonesboro.

Development around Lee Street park

- Construct a new Jonesboro Municipal Complex
- Renovate and expand Lee Street Elementary School and the Jonesboro Public Library
- Work with Clayton County Schools to incorporate active uses compatible with downtown into the Perry Learning Center

Is this Item Goal Related? (<i>If yes, describe how this action meets the specific Board Focus Area or Goal</i>)	
Yes	Economic Development, Community Planning, Neighborhood and Business Revitalization
Summary & Background	(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)
Agency recommendation – Approval of Conditional Use application, with listed conditions ; Recently, the applicant, OneStreet Residential, applied for a Conditional Use Permit for a mixed apartment / duplex (“cottage”) community southwest of the intersection of North Avenue and North Main Street. The development will have 87 total units, 57 apartment units in one, three-story building and 30 duplex units. The community will be restricted to the active senior 55 plus demographic and will adhere to the architectural and other design standards of the recently adopted Active Senior Overlay District, Section 86-117 (Ordinance 2020-009).	
The subject properties specified in the applications are as follows:	
<ol style="list-style-type: none"> 1. Entire parcel 13240D D015 / 109 North Avenue – fronts North Avenue; Zoned R-2 (Single-Family Residential); currently contains one detached single-family residence. 2. Entire parcel 13240D D016 / 113 North Avenue – fronts North Avenue; Zoned H-1 (Historic District); currently vacant. 3. Rear portion of parcel 13240D D012 / 217 North Main Street – no frontage for this development; Zoned H-1 (Historic District); the building at the front of the property formerly contained a salon. 4. Rear portion of parcel 13240D D011 / 215 North Main Street – no frontage for this development; Zoned H-1 (Historic District); the building at the front of the property currently contains a frame shop. 5. Rear portion of parcel 13240D D010 / 211 North Main Street – no frontage for this development; Zoned H-1 (Historic District); the building at the front of the property currently contains a gas station and convenience store. 6. Rear portion of parcel 13240D D009 / 205 North Main Street – no frontage for this development; Zoned H-2 (Historic District); the building at the front of the property is currently a residence. 7. Rear portion of parcel 13240D D008 / 203 North Main Street – no frontage for this development; Zoned H-2 (Historic District); the building at the front of the property contained a residence, which recently burned and was demolished. 	
If approved, the North Avenue parcels and the rear portions of the North Main Street parcels would be replatted into one parcel, but the different zoning designations would remain. The proposed mix of residential uses (apartments / duplex cottages) would be allowed with a conditional use permit under the umbrella of the Active Senior Overlay District, which would encompass the entirety of the combined parcel and govern the development standards of the parcel, overriding the standards of the Historic Residential Overlay and the Assembly Overlay which straddle the subject properties.

Sec. 86-205. – Multi-family (Apartments)

The following conditions are assigned in the R-M and M-X districts:

(1) The standards of the R-M district shall control development of apartments. The architectural, size of the units, density, etc. of the Active Senior Overlay would override the standards of R-M zoning.

(2) Must be located off a street having a classification of collector or greater. Access would be off North Avenue, which is a collector road, per the City Thoroughfare Plan.

(3) A minimum 25-foot wide buffer shall be maintained along all property lines adjacent to any single-family, detached residential property. This will be complied with all along the western property boundary.

Thus, the general conditions of Sec. 86-205 will be met and surpassed.

In terms of aligning with the Future Development Map (see enclosed), the subject properties are located in the “Downtown” district. The properties are also just outside of the “Gateway Commercial” district. Per the Downtown district, permitted uses are office, residential, retail, and institutional. Per the Comprehensive Plan, “the Jonesboro Livable Centers Initiative Study should be used as guidance within this area.” The Gateway Commercial district states that this area is “the main gateway into the city from the north and is visitors first impression of the City.” **Based on residential uses being allowed in the Downtown district, the development wanting to expand upon the LCI study area, and the high architectural quality of the development potentially enhancing the northern gateway into the City, the project aligns with the Future Development Map.**

The development will comply with the minimum dwelling size requirements and maximum density requirements of the Active Senior Overlay. The smaller dwelling sizes is reflective of the general needs of the active, 55-plus demographic. Per the enclosed photos, the exterior of the apartment building will be a quality mix of masonry or stone and cementitious siding. The exterior of the duplexes / cottages will give the appearance of a single-family residential home. The interior of all the dwelling units reflects universal design (aging in place) elements. Size options for the apartments range from 1 bedroom to 3 bedrooms. Size options for the duplex cottages range from 1 bedroom to 2 bedroom. Outdoor amenities include walking areas, bocce ball, covered sitting / grilling areas, and community gardens. Indoor amenities include gathering areas with bookshelves and a fitness center.

In terms of relation to other properties, the apartments will be concentrated to one building, closer to the road than to the single-family residential homes along Lee Street to the west. The duplexes will be scattered throughout the property. All buildings will be screened from other homes to the west by a 25- foot wide natural buffer, which is on the edge of woodlands on the rear of the Lee Street properties. The stream area to the south will also be a natural area.

In summary, staff believes that the proposed development will be a quality “hub” within the City, in line with the intent of the Future Development Map and the LCI study. It will supply much-needed housing stock for a critical demographic, and it will hopefully spur quality commercial growth along its periphery.

Staff Recommendation: Approval, with the following conditions:

1. The 25-foot wide buffer along the western and southern boundaries of the development shall remain natural and undisturbed, with the exception of minimal clearing for perimeter fence construction. Supplemental plantings in bare areas within the buffer may be required per the discretion of the Zoning Administrator.
2. Unless official approval is granted by relevant agencies, the stream banks and stream buffer area shall remain undisturbed.
3. Stormwater management is subject to approval by the Clayton County Water Authority.
4. The City of Jonesboro reserves the right to require a variance for any impervious setback encroachments and any corresponding compensatory measures.
5. All new perimeter fencing shall be a minimum 6-foot tall, opaque material, and non-climbable.
6. Parking for all uses shall conform to City requirements in Article XIII.
7. Landscaping in parking lots and other relevant areas shall conform to City requirements in Article XV.
8. Signage shall conform to City requirements in Article XVI.
9. All lighting shall be night-sky friendly.
10. The development shall conform to all security and maintenance standards outlined in Section 86-117.

Update for May 11th Council Meeting

- Deleted erroneous reference to “3 bedrooms” in staff report
- Confirmed that residency will be reserved for those minimum 62 years old
- Confirmed that the development will be a gated community
- Added approval condition #11 - Final architectural exteriors shall be subject to Design Review Commission and Historic Preservation review and approval.
- Per Brendan Barr on May 8th: We received our final noise study report earlier this week that necessitated a tweak to the site plan the Mayor and City Council are considering for approval next Monday evening, May 11th. Due to the noise levels encountered on site, we need to relocate our exterior resident's gardens to meet HUD threshold guidelines. The gardens are now in the central courtyard area just west of the stack flat, “big house” building. This is the only location for them to exist due to the noise levels, as the building itself is serving as a noise buffer. I've attached the current plan (Rezoning Plan), along with the new plan (Rezoning Plan v2) adjusted for the noise results. **The revised plan has been attached. The layout of the apartment and duplex units has not changed.**

I. INTRODUCTION

This Application seeks a Conditional Use Permit to allow for the redevelopment of a ±6.70 acre tract of land located in Land Lot 240, 13th District, Clayton County for a proposed active senior living retirement community. The community will consist of fifty-seven (57) units in one three-story building, as well as thirty (30) units in a duplex configuration (“Proposed Development”). The community also will contain outdoor amenities such as walking trails and a community garden, as well as interior amenities such as a fitness center, craft room and gathering areas.

The Applicant submits this document as a Statement of Intent with regard to its Application, a preservation of the Applicant’s constitutional rights, and a written analysis for the proposed CUP criteria listed in the City of Jonesboro Code of Ordinances (“Zoning Code”) § 86-129 (Retirement Community).

II. CRITERIA TO BE APPLIED TO CONDITIONAL USE PERMITS

A. A maximum of 90 dwelling units shall be permitted.

The Proposed Development contains only 87 units in total.

B. Must be located on a street having a classification of collector or greater.

The access for the Proposed Development will be on North Avenue which is classified as a Major Collector per the City of Jonesboro Thoroughfare Plan, City of Jonesboro Code of Ordinances Appendix. North Avenue is also classified as a Minor Arterial per the Georgia Department of Transportation’s Functional Classification Map. See Exhibits 4a and 4b.

C. Must be established on a lot having a minimum area of one acre.

The total acreage exceeds one acre.

D. Development will comply with the requirements of the Active Senior Overlay district.

This requirement will be analyzed once the draft of the Overlay ordinance is finalized.

The Subject Property will be located in the Active Senior Overlay District which will allow the proposed Retirement Community use as a Conditional Use. The City of Jonesboro Comprehensive Land Use Plan designates this area as a Downtown character area. The proposed use is consistent with that character area's goal of creating a pedestrian oriented environment. The residents of the proposed senior living facility are anticipated to be active and mobile members of the community, but typically have a reduced need/desire to drive. Therefore, it is essential that the Proposed Development be located in a pedestrian oriented area with nearby access to a variety of commercial retail and service uses, such as the Downtown character area. In addition, the proposed residential community is a use specifically targeted for the Downtown area and the particular active senior living adds to the variety of uses it contemplates.

The Proposed Development meets the following goals of the Downtown character area:

- Design should be pedestrian oriented with strong, walkable connections between different uses.
- Enhance the pedestrian-friendly environment by adding sidewalks and creating other pedestrian-friendly trail/bike route linking neighboring communities and major destinations, such as libraries, neighborhood centers, health facilities, parks and schools.

The Proposed Development will meet the Overlay's design and use requirements.¹

¹ As of the date of this Statement of Intent, the final wording and conditions of the Active Senior Overlay is not yet final. Therefore, this Statement of Intent is subject to change based on the final approved conditions of the Overlay.

III. PRESERVATION OF CONSTITUTIONAL RIGHTS

As agent for the owners of the property, the Applicant respectfully submits that the current zoning classification of and rules relative to a retirement community's right to use the Subject Property established in the City of Jonesboro Zoning Ordinance, to the extent they prohibit this use, are unconstitutional, and constitute an arbitrary, irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Property owners in violation of the due process and equal protection rights of the property owner guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia. Further, the failure to allow this use would constitute a taking of the owner's private property without just compensation and without due process in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia.

Further, the Applicant respectfully submits that the City Council's failure to approve the requested Conditional Use Permit would be unconstitutional and would discriminate in an arbitrary, capricious and unreasonable manner between the Property Owner and owners of similarly situated property in violation of Article I, Section III, Paragraph I of the Constitution of the State of Georgia and the Equal Protection Clause of the Fourteenth Amendment of the Constitution of the United States.

A refusal to allow the development in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A. § 36-66-1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

Opponents to this request, if any, lack standing; have failed to exhaust administrative remedies; and have waived their rights to appeal by failing to assert legal and constitutional objections.

IV. CONCLUSION

For the foregoing reasons, the Applicant respectfully requests that the Conditional Use Permit at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Jonesboro so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 16 day of April, 2020.

I. INTRODUCTION

This Application seeks a Conditional Use Permit to allow for the redevelopment of a ~~±6.70~~ acre tract of land located in Land Lot 240, 13th District, Clayton County for a proposed active senior living retirement community. The community will consist of fifty-seven (57) units in one three-story building, as well as thirty (30) units in a duplex configuration (“Proposed Development”). The community also will contain outdoor amenities such as walking trails and a community garden, as well as interior amenities such as a fitness center, craft room and gathering areas.

The Applicant submits this document as a Statement of Intent with regard to its Application, a preservation of the Applicant’s constitutional rights, and a written analysis for the proposed CUP criteria listed in the City of Jonesboro Code of Ordinances (“Zoning Code”) § 86-129 (Retirement Community).

II. CRITERIA TO BE APPLIED TO CONDITIONAL USE PERMITS

A. A maximum of 90 dwelling units shall be permitted.

The Proposed Development contains only 87 units in total.

B. Must be located on a street having a classification of collector or greater.

The access for the Proposed Development will be on North Avenue which is classified as a Major Collector per the City of Jonesboro Thoroughfare Plan, City of Jonesboro Code of Ordinances Appendix. North Avenue is also classified as a Minor Arterial per the Georgia Department of Transportation’s Functional Classification Map. See Exhibits 4a and 4b.

C. Must be established on a lot having a minimum area of one acre.

The total acreage exceeds one acre.

D. Development will comply with the requirements of the Active Senior Overlay district.

This requirement will be analyzed once the draft of the Overlay ordinance is finalized. The Subject Property will be located in the Active Senior Overlay District which will allow the proposed Retirement Community use as a Conditional Use. The City of Jonesboro Comprehensive Land Use Plan designates this area as a Downtown character area. The proposed use is consistent with that character area's goal of creating a pedestrian oriented environment. The residents of the proposed senior living facility are anticipated to be active and mobile members of the community, but typically have a reduced need/desire to drive. Therefore, it is essential that the Proposed Development be located in a pedestrian oriented area with nearby access to a variety of commercial retail and service uses, such as the Downtown character area. In addition, the proposed residential community is a use specifically targeted for the Downtown area and the particular active senior living adds to the variety of uses it contemplates.

The Proposed Development meets the following goals of the Downtown character area:

- Design should be pedestrian oriented with strong, walkable connections between different uses.
- Enhance the pedestrian-friendly environment by adding sidewalks and creating other pedestrian-friendly trail/bike route linking neighboring communities and major destinations, such as libraries, neighborhood centers, health facilities, parks and schools.

The Proposed Development will meet the Overlay's design and use requirements.¹

¹ As of the date of this Statement of Intent, the final wording and conditions of the Active Senior Overlay is not yet final. Therefore, this Statement of Intent is subject to change based on the final approved conditions of the Overlay.

III. PRESERVATION OF CONSTITUTIONAL RIGHTS

As agent for the owners of the property, the Applicant respectfully submits that the current zoning classification of and rules relative to a retirement community's right to use the Subject Property established in the City of Jonesboro Zoning Ordinance, to the extent they prohibit this use, are unconstitutional, and constitute an arbitrary, irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Property owners in violation of the due process and equal protection rights of the property owner guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia. Further, the failure to allow this use would constitute a taking of the owner's private property without just compensation and without due process in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia.

Further, the Applicant respectfully submits that the City Council's failure to approve the requested Conditional Use Permit would be unconstitutional and would discriminate in an arbitrary, capricious and unreasonable manner between the Property Owner and owners of similarly situated property in violation of Article I, Section III, Paragraph I of the Constitution of the State of Georgia and the Equal Protection Clause of the Fourteenth Amendment of the Constitution of the United States.

A refusal to allow the development in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A. § 36-66-1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

Opponents to this request, if any, lack standing; have failed to exhaust administrative remedies; and have waived their rights to appeal by failing to assert legal and constitutional objections.

IV. CONCLUSION

For the foregoing reasons, the Applicant respectfully requests that the Conditional Use Permit at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Jonesboro so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 16 day of April, 2020.

I. INTRODUCTION

This Application seeks a Conditional Use Permit to allow for the redevelopment of a ±6.70 acre tract of land located in Land Lot 240, 13th District, Clayton County for a proposed active senior living retirement community. The community will consist of fifty-seven (57) units in one three-story building, as well as thirty (30) units in a duplex configuration (“Proposed Development”). The community also will contain outdoor amenities such as walking trails and a community garden, as well as interior amenities such as a fitness center, craft room and gathering areas.

The Applicant submits this document as a Statement of Intent with regard to its Application, a preservation of the Applicant’s constitutional rights, and a written analysis for the proposed CUP criteria listed in the City of Jonesboro Code of Ordinances (“Zoning Code”) § 86-129 (Retirement Community).

II. CRITERIA TO BE APPLIED TO CONDITIONAL USE PERMITS

A. A maximum of 90 dwelling units shall be permitted.

The Proposed Development contains only 87 units in total.

B. Must be located on a street having a classification of collector or greater.

The access for the Proposed Development will be on North Avenue which is classified as a Major Collector per the City of Jonesboro Thoroughfare Plan, City of Jonesboro Code of Ordinances Appendix. North Avenue is also classified as a Minor Arterial per the Georgia Department of Transportation’s Functional Classification Map. See Exhibits 4a and 4b.

C. Must be established on a lot having a minimum area of one acre.

The total acreage exceeds one acre.

D. Development will comply with the requirements of the Active Senior Overlay district.

This requirement will be analyzed once the draft of the Overlay ordinance is finalized. The Subject Property will be located in the Active Senior Overlay District which will allow the proposed Retirement Community use as a Conditional Use. The City of Jonesboro Comprehensive Land Use Plan designates this area as a Downtown character area. The proposed use is consistent with that character area's goal of creating a pedestrian oriented environment. The residents of the proposed senior living facility are anticipated to be active and mobile members of the community, but typically have a reduced need/desire to drive. Therefore, it is essential that the Proposed Development be located in a pedestrian oriented area with nearby access to a variety of commercial retail and service uses, such as the Downtown character area. In addition, the proposed residential community is a use specifically targeted for the Downtown area and the particular active senior living adds to the variety of uses it contemplates.

The Proposed Development meets the following goals of the Downtown character area:

- Design should be pedestrian oriented with strong, walkable connections between different uses.
- Enhance the pedestrian-friendly environment by adding sidewalks and creating other pedestrian-friendly trail/bike route linking neighboring communities and major destinations, such as libraries, neighborhood centers, health facilities, parks and schools.

The Proposed Development will meet the Overlay's design and use requirements.¹

¹ As of the date of this Statement of Intent, the final wording and conditions of the Active Senior Overlay is not yet final. Therefore, this Statement of Intent is subject to change based on the final approved conditions of the Overlay.

III. PRESERVATION OF CONSTITUTIONAL RIGHTS

As agent for the owners of the property, the Applicant respectfully submits that the current zoning classification of and rules relative to a retirement community's right to use the Subject Property established in the City of Jonesboro Zoning Ordinance, to the extent they prohibit this use, are unconstitutional, and constitute an arbitrary, irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Property owners in violation of the due process and equal protection rights of the property owner guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia. Further, the failure to allow this use would constitute a taking of the owner's private property without just compensation and without due process in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia.

Further, the Applicant respectfully submits that the City Council's failure to approve the requested Conditional Use Permit would be unconstitutional and would discriminate in an arbitrary, capricious and unreasonable manner between the Property Owner and owners of similarly situated property in violation of Article I, Section III, Paragraph I of the Constitution of the State of Georgia and the Equal Protection Clause of the Fourteenth Amendment of the Constitution of the United States.

A refusal to allow the development in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A. § 36-66-1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

Opponents to this request, if any, lack standing; have failed to exhaust administrative remedies; and have waived their rights to appeal by failing to assert legal and constitutional objections.

IV. CONCLUSION

For the foregoing reasons, the Applicant respectfully requests that the Conditional Use Permit at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of the City of Jonesboro so that such recommendations or input might be incorporated as conditions of approval of this Application.

This 16 day of April, 2020.

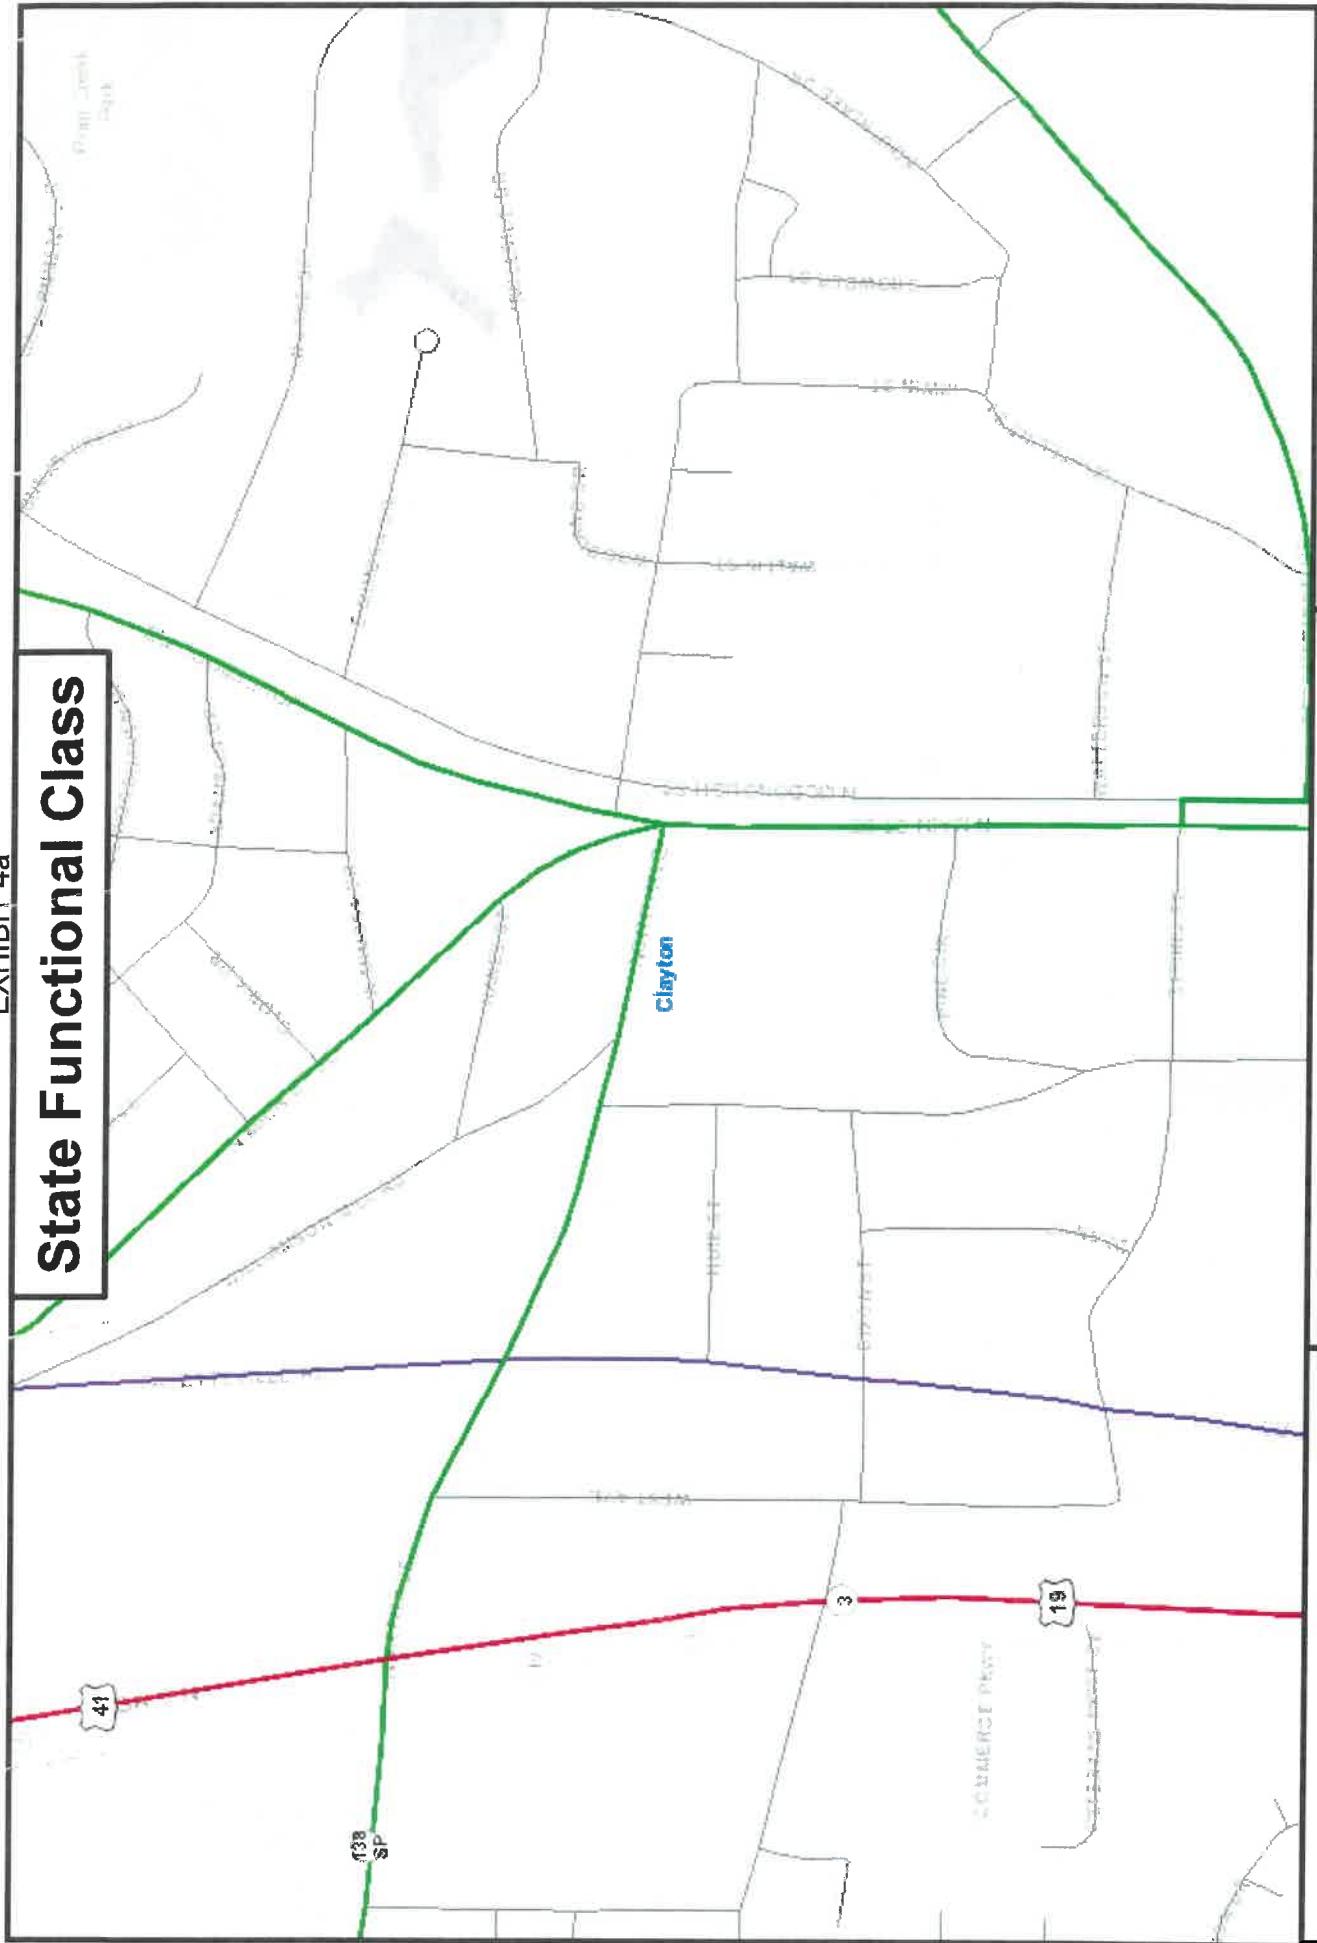

Respectfully submitted,

Jonesboro Thoroughfare Plan [EXCERPT]

Standards and design criteria adopted by other jurisdictions can provide an appropriate frame of reference in considering local plans. However, this information must be tailored to the Jonesboro context. The following standards and design criteria are proposed:

The Jonesboro Thoroughfare Plan establishes a street hierarchy comprised of Primary Arterial, Major Collector and Local Street. These are organized in order of size, with the Interstate conveying the highest traffic volumes and the highest speeds; local streets carry the lowest volumes and are characterized by the lowest speeds. Each street classification in the hierarchy is described below:

- Primary Arterial
- Major Collector
- Local Street

Primary Arterials

Arterials are designed to provide a high degree of mobility and serve longer vehicle trips to, from, and within urban areas. Arterials form the skeleton of the roadway network, linking urban centers such as the Central Business District, industrial parks, commercial centers, major residential developments and other key activity centers. Primary Arterials are designed to carry between 45,000 and 75,000 trips per day. The City of Jonesboro has only one Primary Arterial and that is Tara Boulevard (Highway 19/41).

Major Collector Streets

Collector streets link neighborhoods to commercial districts and commuter traffic to secondary arterials. These streets are well traveled and are built to an urban standard. Collector streets are typically two- to four-lane facilities with an average daily traffic count between 7,500 and 15,000 vehicles. The following streets comprise Jonesboro's Major Collector Streets:

*Fayetteville Road
North Avenue
North Main Street
South Main Street
McDonough Street
Smith Street
Stockbridge Road/Highway 138
Jodeco Road*

<ol style="list-style-type: none"> At the March 11, 2019 City Council meeting, the Council voted to approve a variance request for front entry garages for future townhomes in Old Ivy Place, with the condition that a Developers Agreement must be submitted to Mayor and Council prior to permitting. McKinley Homes is the new owner and is currently completing permitting for 8 lots. The Mayor and Council also reviewed the exterior architecture of the new units, which was approved by the Design Review Commission on February 6, 2019. The exteriors within the developer's agreement and the construction plans have not departed from the exteriors approved in 2019. The first fifteen lots of Old Ivy Place were developed years ago, with a rear access drive and no front garages. The new townhomes will have a superior architectural style and better circulation with the front entry garages. There is a portion of Old Ivy Place off of Douglass Trail which is in the County and has recently completed several new townhome units in the same style presented here. The roads, streetlights, and other infrastructure were installed years ago. The final plat was approved in 2005, with its own setback standards. With the exception of the 15 developed lots near Stockbridge Road, none of the new units will be able to be seen from Stockbridge Road or any other main City Thoroughfare. 	
Staff has several suggested revisions: <ol style="list-style-type: none"> The zoning for the property (RM) needs to be referenced with the approved setbacks from the final plat and the required dwelling unit sizes. In Section One, item D Landscaping, a statement needs to be inserted that “all unit landscape plans are subject to approval by the Zoning Administrator prior to issuance of a Certificate of Occupancy.” 	
Agreement is undergoing review by the City Attorney's office.	
<u>Update for ay 11th Council Meeting:</u> <ul style="list-style-type: none"> The Developer's Agreement was revised per Mayor / Council, City Attorney, and staff comments and the revised agreement, dated May 8th, is attached. The revised agreement is formatted and worded per City Attorney standards. It also includes provisions for treatment of trash receptacles and future amenities.
