 - 1. Historic Preservation Commission to Consider a Certificate of Appropriateness for a Residential Alteration – 113 South Avenue, Parcel No. 05241D E025; Roof Replacement – Asphalt Shingle to Metal (Aluminum)
- IV. ADJOURNMENT**

CITY OF JONESBORO, GEORGIA COUNCIL
Agenda Item Summary

Agenda Item #

3.1

- 1

COUNCIL MEETING DATE
November 17, 2020

Requesting Agency (Initiator)

Office of the City Manager

Sponsor(s)

Community Development Director Allen

Requested Action (Identify appropriate Action or Motion, purpose, cost, timeframe, etc.)

Historic Preservation Commission to Consider a Certificate of Appropriateness for a Residential Alteration – 113 South Avenue, Parcel No. 05241D E025; Roof Replacement – Asphalt Shingle to Metal (Aluminum)

Requirement for Board Action (Cite specific Council policy, statute or code requirement)

City Code Section 86-111 Historic Residential Overlay Standards; Secretary of Interior Historic Design Standards

Is this Item Goal Related? (If yes, describe how this action meets the specific Board Focus Area or Goal)

Yes

Beautification, Community Planning, Neighborhood and Business
Revitalization, Historic Preservation

Summary & Background

(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)

Agency recommendation – **Approval**; The residence located at 113 South Avenue has been owned by the Mitchell family for many years. The property is zoned R-2 but is in the historic residential overlay. Recently, the applicant applied for a building permit to replace the asphalt shingle roof on the building with a light-colored metal roof.

The Design Review Commission and Historic Preservation Commission will review this **change in material** in a joint special-called meeting on November 17th, due to the fact that repairs to the roof could not wait until December.

Historic Residential Overlay

(g) Architectural design standards.

The following standards shall control renovation, new construction and development in the historic residential overlay:

(1) Rehabilitation. Careful maintenance of the existing historic design, materials and details of structures in the overlay is encouraged. Rehabilitative efforts shall include the use of materials compatible with the architectural style of the historic structure (see article VII, Architectural style and scale for guidance on specific historic styles and building materials traditionally found in Jonesboro).

a. Roofs.

1. The existing pitch and shape of the roof shall be maintained. **Noted**
2. The shape, style, and placement of historic dormers shall be maintained. **Noted**
3. Addition of dormers to the front facade where none previously existed is prohibited. **None proposed.**
4. Existing roof materials shall be replaced with the same type of historic material or with materials that closely resembles the existing material. **Though the replacement material will be different, metal is considered an upgrade to asphalt, and the proposed light color will be appropriate for the surrounding neighborhood. There are several light-colored metal roofs nearby on South Avenue.**
5. Decorative brackets, cornices, and eaves shall be maintained. **Noted**
6. Historic chimneys shall be maintained; new chimneys shall use traditional design and materials, and their placement shall be appropriate for the architectural style of the structure. **None proposed.**

FOLLOW-UP APPROVAL ACTION (City Clerk)

Typed Name and Title

Ricky L. Clark, City Manager

Date

Signature

City Clerk's Office

Article VII, Architectural Style and Scale, does not specifically address roofing material.

The Secretary of Interior Historic National Standards reference the following about preserving historic roofs and roof replacement:

Roofs

Identify, retain, and preserve

recommended

Identifying, retaining, and preserving roofs--and their functional and decorative features--that are important in defining the overall historic character of the building.

This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features, such as cupolas, cresting chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning.

Copper and wrought iron weathervane.

not recommended

Radically changing, damaging, or destroying roofs which are important in defining the overall historic character of the building so that, as a result, the character is diminished.

Removing a major portion of the roof or roofing material that is repairable, then reconstructing it with new material in order to create a uniform, or "improved" appearance.

Changing the configuration of a roof by adding new features such as dormer windows, vents, or skylights so that the historic character is diminished.

Stripping the roof of sound historic material such as slate, clay tile, wood, and architectural metal.

Applying paint or other coatings to roofing material which has been historically uncoated.

Roofs

Replace

recommended

Replacing in kind an entire feature of the roof that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature.

Replacement of damaged clay tile roof.

Examples can include a large section of roofing a dormer or chimney.

3.1

If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered.

not recommended

Removing a feature of the roof that is unrepairable, such as a chimney or dormer, and not replacing it; or replacing it with a new feature that does not convey the same visual appearance

“Replacing in kind extensively deteriorated or missing components of roof features when there are surviving prototypes, such as ridge tiles, roof cresting, or dormer trim, slates, or tiles, or when the replacement can be based on documentary or physical evidence. The new work should match the old in material, design, scale, color, and finish.”

“Replacing an entire roof feature, such as a chimney or dormer, when limited replacement of deteriorated or missing components is appropriate. Using replacement material that does not match the historic roof feature.”

Staff visited the property and noted the faded, aged quality of the existing shingles. Staff also noted that there is a mix of metal and asphalt shingle roofs in the immediate area, all of which are in the historic residential overlay. The applicants are concerned that leaks in the roof during heavy rains could impact the integrity of the rest of the structure. They would like to get the roof installed as soon as possible. The owner will match the color of the existing shingle to the maximum extent possible. The grey of the new metal panels will not be a significant departure from the color of the original asphalt shingle. The metal material is considered an “upgrade” to the regular asphalt shingles. To staff’s knowledge, no historic items, such as chimneys, dormers, etc., are being removed.

Design Review Commission / Historic Preservation Commission, 11.17.20: Approval of light-colored metal panels for replacement roof

Fiscal Impact

(Include projected cost, approved budget amount and account number, source of funds, and any future funding requirements.)

JONESBORO HISTORIC PRESERVATION COMMISSION

APPLICATION FOR CERTIFICATE OF APPROPRIATENESS

The Jonesboro Historic Preservation Commission or J.H.P.C. is tasked with insuring the Historic District's Preservation and standards are met according to the City of Jonesboro Codes and Ordinances. This application and approval thereof does not constitute an approval to begin construction. It is a review of Chapter 86 – Zoning, Section 86-102 (H-1) Historic District and Section 86-103 (H-2) Historic District. Once the applicants meets Historic District Code, the process of approval of plans, land disturbance, and other compliance measures must be met. Please contact the Jonesboro City Hall (770) 478-3800 and speak with the City Clerk for further information.

PROJECT INFORMATION

Type of Project (Check all that apply)

Construction

- ☐ New building
- ☐ Additional building
- ☒ Minor Exterior Change
- ☐ Major Building Restoration, Rehabilitation, or Remodeling

Site Changes

- ☐ Parking area(s), Driveway(s), or Walkway(s)
- ☐ Fence(s) or Wall (s)
- ☐ Sign(s)
- ☐ Mechanical System(s)
- ☐ Non-temporary Site Feature(s): (i.e. satellite dishes, pools, lighting, arbors, gazebo's, etc.)

Demolition or Relocation

- ☐ Primary Building
- ☐ Outbuilding
- ☐ Site Feature

APPLICATION REQUIREMENTS

Applicants must include support materials as noted to be considered (i.e. plans, schematics, images, dimensions, surrounding structures). Incomplete applications will not be reviewed.

APPLICATION DEADLINE & REPRESENTATION

Applications must be delivered to the Jonesboro City Hall at least eighteen (18) days preceding the next scheduled J.H.P.C. meeting. The J.H.P.C. meets on an as needed basis. Applicant's attendance is required: A presentation with visuals and detailed information is suggested. Questions which may arise, and if unanswered could result in the denial of the application.

REQUIRED MATERIALS

The following materials are required for a complete application. Incomplete applications WILL NOT be reviewed.

A. New Buildings and Additions:

- i. Description of Project
- ii. Site Plan
- iii. Architectural Elevations
- iv. Floor Plan
- v. Description of Materials
- vi. Photographs of Proposed Site

B. Major Restoration, Rehabilitation, or Remodeling:

- i. Architectural Elevations or Sketches
- ii. Description of Project
- iii. Description of Materials
- iv. Photographs of Proposed Site

C. Minor Exterior Changes:

- i. Description of Project *- New Roof*
- ii. Description of Materials *Metal Roof*
- iii. Photographs of Existing Building

D. Site Changes: Parking, Driveways & Walkways:

- i. Site Plan or Sketch of Site
- ii. Description of Materials
- iii. Photographs of Site

E. Site Changes: Fences, Walls, and other Site Features:

- i. Site Plan or Sketch of Site
- ii. Architectural Elevations or Sketches
- iii. Description of Materials
- iv. Photographs of Site

F. Site Changes: Signs:

- i. Architectural Elevation or Sketch (For signs located on the building)
- ii. Site Plan or Sketch of Site (For free standing signs)
- iii. Description of Materials and Illumination
