COUNCIL MEETING DATE

June 2, 2021

Requesting Agency (Initiator) Office of the City Manager	Sponsor(s) Community Development Director Allen
Requested Action (<i>Identify appropriate Action or Motion, purpose, cost, timeframe, etc.</i>) Commission to make a recommendation for Pure Beauty Bar – 244 North Main Street; Parcel No. 13240B E006A; Revised sign design for business in commercial center.	
Requirement for Board Action (<i>Cite specific Council policy, statute or code requirement</i>) City Code Section 86-489 and 86-490 – Sign Standards	
Is this Item Goal Related? (<i>If yes, describe how this action meets the specific Board Focus Area or Goal</i>) Yes Beautification, Community Planning, Neighborhood and Business Revitalization	
Summary & Background	(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)
Agency recommendation – Approval of revised sign design (without flat iron and brush graphics); At the May 5 th meeting, Design Review rejected the original design, with the following comments:	
<ul style="list-style-type: none"> o Re-word the service descriptions o Reduce the number of colors. o Remove window coverings to compliance. 	
The revised design simplifies the graphics and colors of the original design and was informally approved by the Design Review Commission via email. The revised panels will be the same size as the original design below.	
<i>The new ground sign panel (metal) will be in the pre-existing sign frame at the front of the parking lot and building sidewalk and will not exceed the panel framework. The size (each side) will be 32 square feet, which is below the 35 square feet maximum allowed in Section 86-490(a) for ground sign panels in planned centers. The white, blue, pink and yellow color scheme of the sign will not conflict with nearby businesses. The framework has been there for many years and has hosted many different businesses. The sign will not be illuminated. The new wall sign panel (metal) will be located on the red sloped roof portion above the entrance door, as have other business signs. The panel size will be 16 square feet, 6.67% of the total store façade and below the 7.5% maximum allowed in Section 86-489(b). The white, blue, pink and yellow color scheme of the sign will not conflict with nearby businesses. The sign will not be illuminated.</i>	
Staff continues to require that the blue and white signs in the windows – “Now Open Pure Beauty Bar...” be removed as they would be redundant and take up much of the window space.	
Fiscal Impact	(Include projected cost, approved budget amount and account number, source of funds, and any future funding requirements.)
Private owner	
Exhibits Attached (Provide copies of originals, number exhibits consecutively, and label all exhibits in the upper right corner.)

The Design Review Commission yesterday afternoon recommended denial of your submitted sign designs and had the following recommendations for the redesign:

1. Put the word "Pure" over "Beauty Bar". All words centered on sign.
2. Put more information on the sign, like the phone number and the fact that it is a salon.
3. The signs need less colors, they are too busy.

When the final design is installed, the blue and white signs in the windows need to be removed.

COUNCIL MEETING DATE

June 2, 2021

Requesting Agency (Initiator) Office of the City Manager	Sponsor(s) Community Development Director Allen
Requested Action (Identify appropriate Action or Motion, purpose, cost, timeframe, etc.) Commission to make a recommendation for Gas Station – 155 South McDonough Street; Parcel No. 13241D H002; Replacement sign panels for existing business in Historic District.	
Requirement for Board Action (Cite specific Council policy, statute or code requirement) City Code Section 86-489, 86-490, 86-495 – Sign Standards	
Is this Item Goal Related? (If yes, describe how this action meets the specific Board Focus Area or Goal) Yes Beautification, Community Planning, Neighborhood and Business Revitalization, Historic Preservation	
Summary & Background	(First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.) Approval of replacement sign panels: The applicant recently inquired about replacing the panels on an existing ground sign framework at the road at 155 South McDonough Street. The property has been a gas station for many years and is changing ownership from Citgo to Valero, and the signage and canopy graphics need to reflect that. The property is zoned H-1 Historic District. (There is a sign permit in the year 2000 for a Marathon gas station, so the station has changed names several times in the past.)
<u>Sec. 86-490:</u> (a) <i>Ground signs, which are permanent, shall be permitted in non-residential zoning districts. No ground sign shall have a height greater than six feet above normal grade, or a sign face area greater than 35 square feet (each side) for lots with a single building and 45 square feet (each side) for planned centers. No portion of a ground sign shall not be located within ten feet of a street right-of-way or within 50 feet of any other permanent sign, major structure or building. Changeable copy shall not exceed 33 percent of the area of the sign face. Ground signs are allowed only on lots upon which there is a building which is currently occupied pursuant to a current and valid certificate of occupancy issued by the city or which is currently being developed under an active building permit issued by the city.</i>	
The location and height of the existing sign framework is not changing and is grandfathered in. The “Valero” sign panel fits the width of the existing frame and is 29.66 square feet (each side), below the 35 square feet maximum for each side. The additional replacement panel, for the gas pricing, is 19.72 square feet (each side). Per Section 86-489, lots with multiple frontages (South McDonough Street and East College Street) are allowed one additional ground sign. Changeable copy will be about 16% of total sign face.	
The property is also in the Historic District (H-1), which has its own signage standards.	
<u>Sec. 86-495. - Historic district.</u>	
(3) <i>Signage standards.</i>	
a. <i>General. Signage shall complement the architectural details of the building and shall not violate or otherwise obscure the architecture of the building to which it is attached. Signs, lettering, or boxed graphics shall not cut across columns, cornices, windowsills, arches or balconies, nor extend above the roofline of any building to which it is attached.</i>	
b. <i>Lettering, size, and content. Letters can be painted or mounted directly on a signboard, storefront, wall or window, if in proportion to the storefront. Lots in the H-1 Historic District are allowed the same amount of signage as lots outside of the H-1 Historic District. In the H-1 Historic District, canopy signs and hanging or suspended signs may be utilized.</i>	

FOLLOW-UP APPROVAL ACTION (City Clerk)

Typed Name and Title Ricky L. Clark, City Manager	Date June, 2, 2021	06/02/21 Design Review Commission APPROVED
Signature	City Clerk's Office	

Provided, however, in no case may the total signage area exceed ten percent of the building face to which the sign is attached. Acceptable lettering materials include wood, stone, synthetic stone, metal, vinyl, dimensional plastic, acrylic, or high-density polystyrene foam. **The overall design of all signage shall be compatible with the turn-of-the-century theme of the historic district.**

7.3

c. Materials. Signs may be constructed of concrete, brick, wood, stone, metal, glass, or synthetic materials that have the same appearance of the aforementioned natural materials due to their finish. All materials shall be compatible with the building's architecture and should be colorfast and resistant to corrosion. Signs shall be professionally finished in accordance with the material selected, whether by sanding, painting, staining and/or sealing, with the edges of the sign framed out and/or sealed.

d. Lighting. All signs in the historic district, whether ground signs or wall signs, shall only be illuminated by an external light source, and through craftsmanship and materials, shall reflect the design aesthetics of the historic district.

e. Colors. The historic preservation commission shall approve the color or colors of all signs as well as the color or colors of all lettering, symbols, marks, pictures, figures, embellishments, frames or the like contained therein.

The property has been a gas station within the Historic District for many years, undergoing many exterior changes. Despite the color, material, and lighting standards above, this is not a new development, and changing out the gas station panels and graphics of the canopy will not be a future detriment to the Historic District. Also, Valero is a recognized national brand, with its own standard color schemes and logos. Also, technically, per Section 86-490, electronic message center signs are not allowed in the Historic District:

(6) *Electronic message center signs are only permitted in the following zoning districts:
C-1 neighborhood commercial district.*

C-2 highway commercial district.

O&I office and institutional district.

MX mixed use district.

M-1 light industrial district.

Again, the gas station property has been allowed the use of electronic signage for many years. The electronic lettering will be for gas prices only and will not blink or flash or change quicker than every 10 seconds.

Fiscal Impact (Include projected cost, approved budget amount and account number, source of funds, and any future funding requirements.)

- Patients with non-specific symptoms (e.g. fatigue, fever, pain) should be referred for general practice.
- If a patient has had a travel history, it is important to ask about the destination and the duration of the trip.
- Other diseases can also be a feature of the overseas trip. These include diarrhoeal diseases, hepatitis, and tick-borne diseases such as Lyme disease and tick-borne encephalitis (TBE) (see Fig. 12.12).
- Other diseases to consider include leptospirosis, dengue fever, and tick-borne relapsing fever.

Einführung

1. Install ACH corner pieces on the exterior. If needed, use corner layout to determine if they should face a clockwise or a counter-clockwise direction. Break ACH along miter lines to form 90° angles. Attach ACH over angles using #10 x 1 1/2" drywall screws. **NOTE:** If section 16 is not an **overhanging eave** layout, use **flashing** instead of **sealing**.
2. Follow the specific **System Cards** layout for panel locations. Always work from white to blue on each side.
3. Attach ACH straight pieces based on eave layout. A counter-clockwise section may be required if either or both eave sections are counter-clockwise. **NOTE:** If section 16 is not an **overhanging eave** layout, use **flashing** instead of **sealing**. Attach ACH sections to the exterior side, exterior inverted side, or eave at the top. **NOTE:** Cut ACH 1" longer than the insulation thickness and make a vertical crease cutting 6 1/4" up from the outer side. Cut ACH and become concave to match outer side.

Requirement for Board Action (Cite specific Council policy, statute or code requirement) City Code Section 86-489, 86-490 - Sign Standards	
Is this Item Goal Related? (If yes, describe how this action meets the specific Board Focus Area or Goal) Yes Beautification, Community Planning, Neighborhood and Business Revitalization	

Summary & Background (First sentence includes Agency recommendation. Provide an executive summary of the action that gives an overview of the relevant details for the item.)

Approval of new ground sign design; Taste of Thailand has been operating at 121 Jonesboro Road for several years. Recently, the owner and applicant inquired about installing a new ground sign along their Jonesboro Road frontage to improve their visibility on that road. The two tall pylon signs (one on Jonesboro Road and one on North Main Street) were removed a couple of years ago. Currently, there is just one wall sign on the front of the building advertising the restaurant.

Sec. 86-490:

(a) Ground signs, which are permanent, shall be permitted in non-residential zoning districts. No ground sign shall have a height greater than six feet above normal grade, or a sign face area greater than 35 square feet (each side) for lots with a single building and 45 square feet (each side) for planned centers. No portion of a ground sign shall not be located within ten feet of a street right-of-way or within 50 feet of any other permanent sign, major structure or building. Changeable copy shall not exceed 33 percent of the area of the sign face. Ground signs are allowed only on lots upon which there is a building which is currently occupied pursuant to a current and valid certificate of occupancy issued by the city or which is currently being developed under an active building permit issued by the city.

The proposed sign will be 5 feet tall. The actual sign face (display of message) will be 24 square feet (each side). Staff met with the applicant and owner at the property and confirmed that the proposed location of the sign will be at least 50 feet away from the building. The right-of-way line was roughly measured and it was determined that the base will be a little over 10 feet from the right-of-way line. The color scheme is the same as the wall sign already installed. There will be no changeable copy. The sign will be internally illuminated.

Fiscal Impact	(Include projected cost, approved budget amount and account number, source of funds, and any future funding requirements.)

PLEASE PRINT OR TYPE This is an application for authorization to erect/change signage. A permit fee of \$ 35.00 will be charged and must be submitted with this application, and is based on the City of Jonesboro Schedule of Fees. The signage fees are based on Independent sign size. A separate application is required for each new sign or for any change to an existing sign.

Once authorization has been given, and within 10 days of work completion, the applicant must request in writing a final permit. Included with your final permit request must be a current and dated photograph of each face of the sign and a signed affidavit that the photographs are accurate, with a statement that the sign was erected/changed as described in the application. False statements made on this application are grounds for revocation of the sign permit authorization.

The city shall process all sign authorizations/permit applications, within 45 days of the city's receipt of completed application. Once written authorization has been issued, all work must be completed within 180 days. If, after 180 days, the City has not received report of completion, the authorization shall become null and void and no final permit will be issued.
